Our City comment & discussion by THOMAS D. WATSON

Neglect of Disabled Ex-Service Men A Blot on Fair Fame of The Nation.

THE investigation of the Veterans' bureau which is being conducted at Washington has brought out an astonishing state of affairs.

It has been very evident to those who have been thrown with the disabled ex-service men that something was decidedly wrong with the administration of the bureau.

According to the testimony so far submitted considerable graft was carried on by some officials and employes of the bureau. This investigation should not stop until it has gone to the very bottom of these charges and any individual that is found guilty should be given the limit of punishment.

* * *

IS a foregone conclusion that the punishment will not be severe enough to fit the crime. Many incapacitated ex-service men have died through failure to receive the proper care. Our government since the war has never been fair to the wounded veterans and it is about time that the citizens at large recognize this state of affairs and demand a change. The ex-service man who is able to earn his own living is not grumbling over the failure of the bonus bill, but he does take exceptions to the neglect of his wounded buddies.

* * *

ACCORDING to a news article in a Los Angeles paper the council of that city has decided that in the future all committee meetings will be open to the public.

In the past the council has been holding star chamber sessions, from which the public has been barred.

We have never been in favor of public bodies having closed door meetings. It is too much like employees barring the employer from conferences concerning his own business.

* * *

TOO many public officials get the idea after election that no consideration should be given to the citizens in administration affairs. We think this is the reason for a great deal of dissatisfaction If all administrative bodies would follow the lead of the Los Angeles council and throw their doors open to all, they would find the public would meet them more than half way and be of much assistance in the solving of difficult problems.

REHEARSALS FOR "OH, HO," BE HELD EARLY NEXT WEEK

With rehearsals all called for early the coming week, active work will be under way on the big spectacular musical comedy that will be staged early in December for the Tuesday Afternoon club.

John Reber, who has had the direction of the many successful presentations of this musical show in the cities of California, will be in personal charge of the direction of the show here, and promises one of the very finest productions that Glendale has known.

"Oh-Ho" is the name of the show. This production holds the record among local talent society shows in the west with its nine productions at the Ye Liberty Theater, in Oakland, where it was given for the Red Cross. No other amateur show in California has had such a phenomenal run. "Oh-Ho" also played a full week at San Francisco, and for five successive years this production was staged at Pasadena, as society benefit production in the Crown City, where it is well remembered as being the most entertaining musical show ever produced there with local talent.

The cast that is being lined up for the show here will be drawn from the cream of the local talent. The show has a college life atmosphere and the musical numbers harp of the fraternity house and the college campus, the theme of the show is a combination of the great shows, "the "Fair Co-ed" and "College Widow," and the lines and comedy smack of the George Ade type.

"Oh-Ho" is planned for the first week in December. The staging will be at the Tuesday Afternoon club. Approximately sixty will take part in the show.

WEATHER

Southern California: Unsettled, probably showers tonight and Sunday; moderate southwesterly winds.

ELDER CHRISTIAN ON EUROPEAN CONDITIONS

Graphically Pictures the Conditions in Many Lands Over There

By NEWTON McGILLIS

The largest crowd of Adventists ever gathered in Glendale were at the regular church services this morning to hear Elder L. H. Christian speak on the present conditions in Europe. The entire church was filled, seats being placed in the aisles, with hundreds standing in the rear and in the Sabbath school rooms. Elder Christian is the president of the General Conference for all of Europe and is now in America in an endeavor to raise funds for the carrying on of the Adventists' great work in Europe. He has traveled through the entire continent, studying conditions and supervising the missionary work.

"A great deal of the unrest in Europe at the present time is due mainly to the lack of proper food and clothing," stated the Elder. "The death rate due to starvation is appalling. I have seen in Poland a cemetery with an area the size of the state of Kansas. The country is torn by war and the present strikes and riots only tend to make matters worse than they were during the war."

He went on to say that without the Word of God being taught to the people, Europe will drop into oblivion from the brink upon which it now rests. Although America has given more than a million and a half in food and clothing, the love of the right must be taught them.

"Europe is rapidly turning away from God, the people doing anything for a little food or clothing. The farmers refuse to sell their produce to Germany, due to the low valuation of the mark, and bankers, lawyers, in fact the highest class of people are forced to venture into the fields at night in an endeavor to obtain a potato, or possibly a small handful of vegetables with which to feed a large family of children for more than a week."

Speaking of military conditions, Elder Christian emphasized the huge standing army which every country in Europe maintains. Europe is preparing for another war, the standing armies being larger now than before the war. Better and more ammunition, guns, airplanes and deadly gases are being manufactured and stored for the future. Russia has the largest army in Europe at the present time and also the only one in which every soldier is able to read and write. Russia is, no doubt, preparing for a march similar to Germany's, but every nation is prepared to meet anything which might occur.

"Another contribution to the downfall of Europe was the failure of the Genoa conference in 1922. This brought down the moral standard of the countries and ruined the entire continent politically.

"The Soviet government is, at the present time, the strongest party in all of Europe. Its head, Lenine, is the foremost figure in the politics of Europe today and his word is law in Russia. The new governments of Europe are tending toward aristocracy, with the people having little or no say in national affairs. This also causes unrest and riots, causing new leaders to come into office at short intervals."

In closing, he told of financial conditions, stating how he got every mark in the banks of Berlin with $3 in American money. One dollar's worth of mark notes in the denomination of one mark would weigh nearly half a ton, and bankers must spend more for carfare than the amount of the note.

A generous collection was taken up for this work. The quota for the Pacific coast is $100,000. Elder Christian expects to return to Poland, his headquarters, in a short time. The entire talk was extremely interesting and educational and was greatly enjoyed by the large congregation.

TOTAL RECEIPTS FOR FIVE HEROES' DEPENDENTS $8055

A final check of all the channels through which tickets were sold for the entertainment given for the benefit of families of the heroes of the Verdugo hills fire, shows, according to Miss Hale of the chamber of commerce, receipts of $4335. Receipts of vountary subscriptions through the banks and other agencies have been reported as $3720, making a total of $8055, which when divided between the dependent families will go a considerable distance toward keeping the wolf from the door

LETTERS LIKE THIS BRIGHTEN LIFE OF NEWSPAPER MAN

Mojave, Calif., Nov. 7.
Glendale Daily Press.
Dear Sir:

Seemingly through an "accident" a copy of your paper fell into our hands and we noticed that you intend publishing Dr. Goodspeed's translation of the New Testament in your paper. In order to avail ourselves of the opportunity of reading this work and also to encourage you in your effort to effect and encourage the wider reading of God's word, which is so sadly neglected today, we are sending a three months' subscription to your paper, desiring to have it begin with the first publication of these articles.

Yours truly,
MRS. P. B. CONKLIN.

SEVENTH DISTRICT CONFERENCE OF REALTORS

Will Be Held in Glendale on Nov. 17 and Big Time Expected

Charles Guthrie was busier than a cranberry merchant when interviewed yesterday afternoon at his West Broadway office. Lists of realtors were stacked all around him which he was consulting in connection with the invitations he is sending out for the regional conference of the 7the distric, which is to be held in Glendale November 17, beginning at 9 a. m. in the Tuesday Afternoon club house. Mr. Guthrie is state vice president and will preside over the conference. Henry Barber president of the state association, will be guest of honor and other notable will be here.

The chief theme of the conference, according to Mr. Guthrie, will be "multiple listing." In some places it has proved a very great success, in other it has not worked out so well because it has not been understood nor handled right, he declares. No subject is of greater interest to realtors all over the state, he says, and it will be discussed from every angle at the morning session. All property owners and realtors, whether members of the local realty board or not, are invited to attend the conference and hear the discussion.

Following the opening session a luncheon will be served in the banquet room of the club house from 12 to 1:30 and visitors will then be taken for a drive around the city. At 2:30 the afternoon session will open for a general conference to adjourn at 5:30.

Regional district No. 7 comprises the realty boards of Alhambra, Bellflower, Compton, Eagle Rock, Glendale, Huntington Park, Long Beach, Monrovia, Montebello, Pasadena, Pomona, San Gabriel, San Pedro, Torrance, Watts, Wilmington and Whittier.

Glendale has the second largest board in the 7th district.

IF YOU'D VOTE ON SEWER BONDS IT MEANS REGISTER

It is presupposed that every citizen of Glendale wants to vote at the sewer bond election, which will be held on Jan. 8, 1924, unless the date is postponed, later. That means you must have registered before Dec. 8, 1923, to be a qualified voter in this important election. The laws of California provide that all citizens must register every even year to be qualified voters and another requirement is that every voter must have lived in the state one year, the county 90 days and the voting precinct 30 days. So, even if you have registered since Jan. 1, 1922, but have moved since then, you must reregister. If you are in any doubt on this question, call up the city cierk and find out exactly where you stand.

A deputy registrar will be on duty in the city hall every day except Sunday, from 1 to 4 p. m.

Or, beginning on Tuesday next, there will be a deputy registrar at the Daily Press office from 8 a. m. to 5 p. m.

Be sure you register.

LET EVERY HEART REJOICE YET PAUSE IN REVERENCE FOR THOSE WHO GAVE LIFE

On Monday We Celebrate the End, Five Years Ago, of the Most Dreadful War That Ever Desolated This Old Earth

IN THIS EVERY ONE SHOULD HAVE A PART

But as We Jubilate Because the War Ended Triumphantly for World Good, Let Us Remember Tenderly Those Who Came Not Back

Glendale is completing plans today for the celebration of Armistice Day.

Although the fifth anniversary of the signing of the Armistice occurs tomorrow, the event is being celebrated Monday in patriotic expressions promoted by Post 127 of the American Legion.

A holiday in honor of the occasion is being observed all over the United States.

Mayor Spencer Robinson has issued a proclamation in which he states: "I urge upon all merchants to close their places of business in order that they and their employes may participate in the patriotic services inmemory of those who made the supreme sacrifice."

Commander Chalmer D. Day of the local post of the American Legion also has issued a request that "every business man, by closing his store or office, honor the accomplishments of our own free nation and its allies."

All ex-service men, whether Legionnaires or not, are being invited to show their patriotism upon this occasion. They will be welcomed into the ranks of their "buddies" whether they are in uniform or in "civies."

Patriotic and fraternal organizations are invited to participate in the parade. Those unassigned will be given places in the line.

M. V. Cook of 248 South Brand boulevard last night was appointed marshal of the parade by E. L. Sullivan of 233 South Brand boulevard, chairman of the Armistice day committee of the American Legion.

The parade will proceed from Cedar street west on Broadway to Brand boulevard, north to California and then south to Colorado street, where it will turn into the High school athletic field.

A short patriotic program will be in charge of Mayor Spencer Robinson. The national anthem will be played by the Sciots band. Rev. Harry Rasmus, associate pastor of the First Methodist church, will be the speaker of the occasion. His subject will be, "A Soldier's Perspective, Yesterday, Today and Tomorrow."

The line-up will be as follows:

Facing west on Broadway—Detachment of police, marshal and aides, city council and city officials, Sciot band, color guard, G. A. R., W. R. C., and Sons and Daughters of Veterans.

Facing on South Belmont street—Spanish War Veterans and members of Spanish War Auxiliary.

Facing west on Broadway—Legionnaires and members of Legion Auxiliary, War Mothers, Red Cross, National Guard, Postoffice band, Boy Scouts.

Facing north on South Adams street—Girl Scouts, school children.

Facing west on Broadway—Other organizations.

A dozen "mounts" have been loaned for the parade by C. L. Thorpe, proprietor of the Oakmont Saddle stables.

A feature of the afternoon will be a football game on local gridiron between the High school team and Van Nuys High school.

The Armistice night ball will be held at the Tuesday Afternoon clubhouse. Legionnaires will be hosts to ex-service men and members of their families. A nine-piece orchestra, which is a favorite at the Biltmore hotel, will furnish rythm for the occasion. Card tables will be available for those who prefer games to dancing.

Announcement was made that Glen Eyrie Social club will meet at the temple at 10 o'clock Wednesday, November 14, with Mrs. Nell Holbrook as chairman, to sew on cats and dolls for the children's hospital.

ANNUAL ELECTION OF OFFICERS FOR EASTERN STAR

Mrs. Jennie Phillips Is the Choice for Worthy Matron

Annual election of officers of Glen Eyrie chapter, order of the Eastern Star, took place at the regular meeting of this organization held Friday night at Masonic temple, when the following executives were elected for the ensuing year: Mrs. Jennie Phillips, worthy matron; Mrs. Mae Warrick, associate matron; Arthur Kase, worthy patron; Mrs. Sadie McPherson, conductress; Mrs. Bertha Wyvell, associate conductress; Mrs. Nell Holbrook, secretary; Mrs. Josephine Woolsey, treasurer.

Among the many visitors present from other chapters of Southern California and other states were Mrs. Corn, past matron of Mizpah chapter, Salt Lake City. It was quite a coincidence that there were present at the meeting six past officers of that chapter who served during Mrs. Corn's term. Mrs. Corn and Mrs. Jennings, also a past matron of Salt Lake, gave short talks.

According to a vote taken at last night's meeting, Glen Eyrie chapter does not favor the organization of a new Eastern Star chapter in Glendale at the present time.

Reports were given by the auditor, secretary and treasurer. On account of the lateness of the hour the worthy matron's report on the Grand Chapter meeting was deferred until the next meeting.

Semi-public installation of the new officers will be held on December 14, with Miss Mildred Irene Lyon, present worthy matron, as the installing officer. At the close of the business meeting the guests and members were secorted into the banquet room where refreshments were served. The tables were decorated with pink carnations. The committee in charge of refreshments included Mrs. C. L. Peckham, chairman, Mrs. Elizabeth Early, Mrs. Jennie Woodberry, Riley Lyon and Mr. and Mrs. W. A. Kulp.

SEWER COMMITTEE MEETS INFORMALLY

An informal committee meeting was held this morning in the office of the Chamber of Commerce to discuss the proposed sewer system. O. A. Smith, member of the engineering firm of Burns & McDonnell, asserted that the report for which the publicity department is waiting will be ready in about a week. C. S. Timanus, engineer for this firm, also attended the meeting. The Chamber of Commerce was represented by W. E. Hewitt and Lyman P. Clark while the city of Glendale was represented by Mayor Spencer Robinson, Councilman Sam Davis, Councilman Asa Hall, City Manager W. H. Reeves and City Attorney Ray L. Morrowl.

AMERICAN LEGION HEARS SPECIALIST IN ACCOUNTING

John B. Chace of Los Angeles, district manager of the La Salle Extension university, spoke last night before post 127 of the American Legion.

Mr. Chace, who is a specialist in accounting, emphasized the importance of efficient cost-finding systems in business. He asserted that, when the income tax went into effect only ten per cent of merchants knew their cost of doing business, 40 per cent estimated it and 50 per cent guessed at it. He remarked that it was no wonder that out of 450,000 corporations actually checked up by the government, 250,000 of them showed no profit.

"Statistics show that the average lifetime of a business is four and a year years," declared Mr. Chace.

According to Mr. Chace, the 1917 income tax returns have not been completely checked up yet because the government has not been able to find a sufficient number of qualified announctants to investigate the books of the corporations.

"I am told that there is $2,500,000,000 due the government in back taxes," he remarked. "A large part of it will never be gotten."

WELFARE CHEST COMMITTEE HAS OUTLINED PLAN

Campaign to Require 400 Workers Who Will Compete

The campaign committee of Glendale's Welfare Community Chest, under the chairmanship of A. W. Tower, at an enthusiastic meeting held in the headquarters of the chamber of commerce Friday night, attended by all but three of the precinct captains, perfected the plan of organization by making two divisions of the city to be known as "Division A" and "Division B," and competing with each other to add spice to the drive.

As at present outlined, about 400 persons will be engaged in the intensive campaign to begin bright and early the morning of Tuesday, November 20, following a mass meeting on the evening of November 19 at the high school, of the board of directors, council, generals, captains, workers and all persons interested.

The two general of divisions A and B have not been named but will be very soon. The precinct heads are to be known as majors. Each will select two team captains, and each captain will select six workers.

Following the procedure in past drives, captains, majors and generals will meet daily for luncheon to report the work of each division.

In the meantime, before actual canvassing begins, an intensive educational campaign will be put on by the publicity committee of which Warren Z. Newton is chairman, that the public may thoroughly understand the purpose of the chest and be prepared to act when called upon for a subscription.

It is expected the campaign will last four days but it will be called off as soon as the $40,000 budget is subscribed, and that goal may be reached in less than four days.

BOCIAL SCIENCE TEACHERS' ASSOCIATION MEETS TODAY

The Social Science Teachers' association of Southern California met today at Glendale Union High school.

The practicability of the Junior High school system was the topic of discussion. A talk was made upon this subject this morning by Miss Helen S. Watson, assistant superintendent of schools in Los Angeles. L. L. Beeman, of Santa Ana High school, ex-president of the association, reported upon the presentation of the subject to the N. E. A. last summer in Oakland, to the principals' convention in May in Yosemite valley and to the superintendents' convention in Riverside last month.

Dr. F. P. Woellner of the Southern Branch of the University of California spoke upon this topic this afternoon.

Miss Hettie Withers of Chaffey Union High school at Ontario, president of the association, presided. About 50 teachers attended.

KIWANIANS HAVE 'FATHER AND SON' DAY FOR 100 BOYS

Prizes Given for Oldest, Youngest and Largest Family

By W. L. TAYLOR

The Kiwanis club was host yesterday at its noon luncheon at the Tuesday Afternoon clubhouse to more than one hundred boys, the majority of whom were sons of the Kiwanians present and who had accompanied their fathers to a dinner and entertainment prepared especially for their benefit.

It was Fathers and Sons' day with the Kiwanis, and old and young mingled together and told stories and lived again the heydey life of youth and early manhood. There were a few Kiwanians who were not blessed with sons and a lesser number of bachelors whose modesty has prevented them from entering the state of true living, but each one had a boy companion and each one enjoyed himself as much as though he were eating by the side of his only son. Some of the Kiwanians had two sons and the greater number of the eighty members present boasted of one son each, although some of the sons were very young, to say the least. Jesse Smith for instance, brought his nine months' old son to the rostrum, and the lively little piece of humanity gleefully waved the bank book and dollar bill awarded him before the members. Ben F. DuPuy, the city engineer, carried off a prize for having three sons, and Eugene Gordon was awarded a prize for having the oldest son at the meeting.

Olo Andressen, song leader, kept the crowd in good spirits with "burlesqued" songs which were set to popular tunes. A fine dinner was served and the boys received a double portion of ice cream and nut cake.

It was decided to vary the programs in the future and members will give five-minute talks on their particular line or occupation when their turn comes.

Bert Perry, chairman for the occasion, took charge of the program, and announced that the silest boost in the form of small balloons was given by the Glendale Ice Cream company, whose delicious cream was served for the occasion.

Lyman P. Clark made a few remarks, urging every Kiwanian to boost for the sewer bonds by not only voting, but seeing to it that his neighbor gets to the polls. Mr. Clark said the sewer bond election is the most important project that has come before the people of Glendale in many years.

Paul Cunningham, a high school student, made a splendid talk, vividly picturing the different kinds of fathers, all of whom were not bad fellows, but some of whom did very little toward inspiring their sons toward high ideals.

The address of the occasion was given by Rev. Calderwood, pastor of the Congregational church, who took for his subject, "Boy Life at Home." His address was full of good stories and teemed with sane and sound advice to the old as well as the young. "Our greatest mistake," said Rev. Calderwood, "is that we underestimate the child; we do not realize his intelligence and power to grasp the big things in life. There is not a boy here who does not know more about radio than any man in the house, and he has gained that knowledge with very little effort. When we thoroughly understand the boy we will be able to do him more good and thus shape his life in the way he should go. Crime will be minimized and it will be due largely to a better knowledge gained by the fathers and mothers on dealing with the boy problem."

On account of the clubhouse being engaged for the society circus next Friday, the Kiwanis club will dine at the Egyptian cafe.

CIVIL SERVICE "EXAM" FOR POSTOFFICE CLERKS

A civil service examination to establish an eligibility list for the local postoffice will be held December 8 according to Postmaster D. Ripley Jackson. Applicants must be citizens of the United States between the ages of 18 and 45. Age, weight and height requirements are waived in the case of honorably discharged service men. Applicants must be not less than five feet four inches in height and weigh not less than 125 pounds without overcoat or hat. The pay while substituting is 60 cents per hour. After appointment the compensation is $1400 per year. The salary increases $100 a year to $1800. Application blanks may be obtained at the local post office.

MUSIC CLUB GIVES FINE CONCERT PROGRAM

Marjorie Dodge and Wm. Tyroler Are Artists of the Evening

Members and guests of the Glendale Music club were most enthusiastic in their reception of the splendid concert given at the regular monthly program meeting on Friday night at the Tuesday Afternoon club auditorium, with Marjorie Dodge, soprano, and William Tyroler, pianist, as the artists of the evening. This was Miss Dodge's first appearance here and the splendid control of her voice, which is of beautiful lyric quality with purity of tone, as displayed in her various selections, won instant favor with the audience of 600 people who were present. Mr. Tyroler has appeared before Glendale audiences on previous occasions and was very heartily welcomed again.

Mrs. Mattison B. Jones, president of the Music club, made several important announcements. The club is endeavoring to help solve the "What to Give" question for the Christmas holidays by offering 200 club memberships, which will entitle the holder to attend six concerts, beginning with January, at a special rate of $4. Carl Gantvoort is to be the artist for the December concert and Allen McQuhae, Irish tenor, who has created a furore in the music circles of the east and is called the "new McCormick," will be the artist for the January concert.

Department meetings were announced as follows: Artists' section, Miss Gertrude Cleophas, curator, will meet on Friday, November 16, at Mrs. C. C. Cooper's, program of English music. Creative section will meet November 15 at home of curator, Mrs. James Ballagh, 308 North Louise street This section will include writers as well as composers. Junior auxiliary will meet on the fourth Saturday evening of November at home of Mrs. Spencer Robinson. The auxiliary is studying the opera and the topic for this meeting will be "Il Trovatore," with duets given by Mayor Robinson and daughter in illustration of this work. Mrs. Mattison B. Jones has invited the members of the juvenile auxiliary to her home on the afternoon of the fourth Saturday in November. A large attendance is desired as pictures of the section will be taken for an eastern magazine. The teachers' round table section is planning an evening party for sometime before Thanksgiving. The oratorio section meets every Tuesday night at the high school auditorium. A present the enrollment in this section is 70.

Mrs. Jones announced a colonial tea to be held at her home in December, proceeds to be used for the federation work of the club. The artists for the evening were then introduced and gave the following program:

1. Group of Italian songs by Marjorie Dodge, with William Tyroler at the piano. (a) "Lieti Signor" (Meyerbeer), (b) "O, Del Mio Amato Beu" (Donaudy), (c) "Carnaval" (Fourdain).

2. (a) Group, of Chinese Mother Goose rhymes (Bainbridge Crist), "Lady Bug, "Baby is Sleeping," "What the Old Cow Said," "The Mouse," "Of What Use is a Girl," "Pat-a-cake," "The Old Woman;" (b) "Lindy Lou." Sung by Marjorie Dodge.

3. Piano solos by William Tyroler. (a) "Farewell" (Schuman-Liszt), (b), "Petite Waltz" (Bekhard). As an encore number Mr. Tyroler played, "Wotan's Farewell."

4. Vocal solo, Jewel song from "Faust" (Gounod).

5. Group of vocal solos by Miss Dodge. (a) "The Lass With the Delicate Air," "The Piper of Love" (Carewe) and "Homing" (Del Riego). As an encore Miss Dodge gave "Her Dream" (Waller).

MAN ARRESTED FOR TAKING OVERCOAT FROM AUTO

Elford Miller of Jersey City, New Jersey, is likely to become at least a temporary resident of Los Angeles county. He was observed Thursday taking an overcoat from an automobile parked on San Fernando road near Cypress street and was taken by Officer E. P. Wurtz to the "city hotel." He is reported to have confessed the attempted theft and tomorrow will be taken before Judge J. Russell Morton of Pasadena in the local police court.

NEW ORGANIST AT THE GATEWAY IS DELIGHTING ALL

"Meet Me at the Gateway," the slogan of Glendale's newest theatre, has recently come to associate to its patrons a more delightful evening's entertainment than that heretofore enjoyed, for added to the personnel of the little playhouse on San Fernando road is Mr. Stanley Bentley.

Mr. Bentley is the new and extremely talented artist-organist of the Gateway. Back of him he has an interesting and enviable musical career, having received a thorough education in all lines of musical work and direction at the Conservatory of Music in Melbourne, Australia. Here he had the advantage of studying under some of the greatest musicians of the day.

STANLEY BENTLEY,
Organist of Gateway Theatre

For three years Mr. Bentley delighted the ears of his hearers, presiding at the organ of the California theater in Los Angeles. Beside that, during two years he was chief organist of the Pantages circuit, and as such was in charge of 24 organs—a remarkable position for one of his years.

As a valuable member of the Canadian air force, serving overseas during the war, Mr. Bentley undewent many thrilling experences.

His advent to Glendale at this time will be appreciated by all theater-goers and music-lovers.

DORIS BARNARD GIVEN WELCOME HOME PARTY

Mr. and Mrs. Charles B. Barnard of 1108 North Central were host and hostess Friday evening at a "welcome home party" for their daughter, Doris Barnard, who has just returned from a 15-month's visit in Boston, Mass. About 25 relatives and friends were present. M. C. Barnard of Los Angeles entertained with stories, and dancing and games were enjoyed, after which refreshments were served. Yellow and white chrysanthemums furnished the floral setting for the charming affair.

FERATION P.-T. A. MEETS NEXT WEDNESDAY

Glendale Federation of Parent-Teachers' associations will hold its regular monthly meeting on Wednesday afternoon at 2:15 o'clock at the Chamber of Commerce rooms on South Brand boulevard.

Miss Madeline Love, daughter of Mr. and Mrs. T. G. Love of 220 West Elk avenue, arrived in Glendale Friday night from Berkeley, where she is attending college. She will remain here until Monday night. During her visit Miss Love plans to attend the U. C. vs. U. S. C. football game.

J. A. Bolton visited San Diego this week, stopping at Hotel St. James.

FINE PROGRAM OF MUSIC AT TUESDAY CLUB YESTERDAY

Prefacing a delightful program of music, of which she was the leader, with a short talk or prologue, Mrs. E. W. Kinney gave some interesting facts regarding Russian music, its development and some of the artists of the country, at the regular meeting of the music section held Friday afternoon in the auditorium of the Tuesday Afternoon club.

Mrs. Kinney introduced the artists for the afternoon, who gave the following program: Piano solos by Miss Alberta Metzler, a resident of Glendale and a pupil of Olga Steeb; soprano solos by Mme. Cherniavsky Freedman, who was a pupil of Hugo Heinz of London for about four years, "Russian Folk Song," "Maiden's Wish" (Chopin), both sung in the Russian language; baritone solos by Gillman Williams for nine years a pupil of David Bisphan of the Bostonians, "Don Juan Serenade" (Tschaikowsky), and "Had a Horse"; Russian dance, "Characterisque," by Miss Marcella Webb of Glendale.

At the close of the program Mrs. Warren Roberts, curator, had charge of a short business meeting. Plans were completed for the fancy work booth at the society circus to be held November 16 and 17. It was announced that Mrs. John Cotton will have charge of the program on December 14, which will be on Christmas music. Mrs. Virginia Freeman, Mrs. John Cotton and Mrs. Roberta Young led the section members in the rehearsal of the song for Charter day.

Following the business meeting the members adjourned to the tea room, where refreshments were served. Mrs. Bine J. Smith was the hostess for the afternoon, assisted by Mrs. H. D. Thaxter, Mrs. F. S. Card and Mrs. Viereck.

REBEKAHS HAVE BUSY TIMES AHEAD OF THEM

Mrs. Evelyn Hall, noble grand of Carnation Rebekah lodge, announces that the degree team will not meet for drill next Tuesday night all drills having been postponed indefinitely.

Friday afternoon the Rebekah Afternoon club met at Odd Fellows' hall and tacked a comforter which will be sold for the benefit of the Orphans' Home at Gilroy. Delicious refreshments were served at the close of the meeting.

Next Friday the club will meet again at Odd Fellows' hall at 10 a. m. to make dolls and doll dresses for the Gilroy orphans.

November 24, Carnation Rebekahs will give a Thanksgiving ball for which tickets are already on sale.

Mrs. Hall, who headed the degree team which initiated three candidates at the meeting last Tuesday night, said that wonderful work was done by her associates on the team for which much credit was due Mr. Stanley for untiring work in training them.

FINEST DANCE ORCHESTRA FOR ARMISTICE DAY BALL

One of the largest and finest dance orchestras to furnish rythm for a local dance will be on hand Monday night in the Tuesday Afternoon club house for the Armistice night ball.

Don Campbell's orchestra, which has been engaged for this occasion, has played a number of times at the Biltmore hotel and for radio. It is directed by Don Campbell who plays first saxaphone; his wife, Mrs. Margaret Campbell, plays the traps; W. S. Hunter of 156 South Brand boulevard is violinist.

Other musicians in this orchestra are Miss Grace Ullman, piano; Robert Fochler, second saxaphone; Ralph Foy, trumpet; C. S. Richardson, trombone; V. S. Neville, banjo, and Warren Alby, saxaphone.

Post No. 127 of the American Legion will be hosts on this occasion to ex-service men and their friends and members of their families.

MRS. RISSMAN ENTERTAINS FOR FRIENDS OF OLD

Mrs. M. Rissman entertained Sunday at the home of her friend, Mrs. Fred Dobrick, 321 Ethel street, Mrs. M. Ohlendick and her two daughters Amanda and Agnes. Mr. and Mrs Howard Richter, and of course her friends the Dobricks. Roses and chrysanthemums were used in decoration. The Ohlendicks, who are now living in Los Angeles, are old friends of their hostess and have recently come to Southern California from Cincinnati.

C. Clifford Riggs, formerly baritone soloist at the First Presbyterian church of Glendale, and later at the Wilshire Baptist church, has accepted a similar position at the Third Presbyterian church of Los Angeles.

IZEN PRESERVES POLISH OF METAL

Here's the latest thing for use in connection with the automobile and the home—Izen. It is a preparation which when applied to any polished surface keeps it from tarnishing and becoming dull. Listen to what the manufacturer claims for Izen:

"Izen is a transparent fluid quickly applied with a brush to any kind of polished metal surface.

"Izen forms an invisible coating which penetrates the pores of the metal so completely that it becomes an actual amalgamation of the metal's surface.

"Izen weather-proofs, water-proofs, tarnish-proofs and rust-proofs.

"Izen is harmless to all metals, can be removed or renewed, if desired, and is harmless to the skin.

"Izen dries in ten minutes, and does not discolor with age, nor does it chip, flake or peel.

"For polished brass, silver, copper, nickel, aluminum, silver-plate, gold plate."

Izan is manufactured by the Alaco Pacific company, of Los Angeles, and is handled in Glendale by the Monarch Auto Supply company, 204 South Brand.

BIRTHDAY SURPRISE FOR AUNT ADDIE HARTER

A very enjoyable surprise was tendered "Aunt Addie" Harter of 234 South Jackson street Thursday afternoon upon the arrival of her 89th birthday anniversary.

She was confined to her bed where she received congratulations, remembrances, birthday cards, a special delivery letter and phone calls.

After a social hour dainty refreshments were served to Mrs. C. M. Sparr, Mrs. Jennie East, Mrs. Grace George and daughter Mary Elizabeth, Mrs. Allie Boynton, Mrs. Pearl Hann, Mr. and Mrs. I. N. East, Mrs. Fannie Allen, Miss Maude East, Mrs. Nell Rogers and little daughter Betty Jane, Mr. and Mrs. J. L. Simmons, Mrs. Stanley Lowery an daughter Virginia, Mrs. Seafroth, Mrs. Esther Preddy and her nurse, Mrs. Z. M. Brown.

MRS. L. H. WILSON HOSTESS AT COUNTRY CLUB

Mrs. Lloyd Wilson was the hostess at a very charming afternoon tea given on Friday at the Glendale country club on San Fernando road for 15 of her friends. The tea tables in the sun room were daintily appointed. Various colored chrysanthemums were used to lend a note of color. Guests included Mrs. C. L. Marlenee, Mrs. H. R. Boyer, Mrs. W. E. Evans, Mrs Gartley, Mrs. Charlotte Busby, Dr. Jessie A. Russell, Mrs. W. L. Twining, Mrs. J. W. Burton, Mrs. C. E. Pendroy, Mrs. Thomas D. Watson, Mrs. E. Kretchmer, Mrs. Arthur Dibbern, Mrs. Layton, Mrs. M. L. Gordon and guests from Los Angeles.

JOHN ROBERT BUSTER IS WEDDED TO MISS METZGER

Rev. C. A. Cole officiated at the wedding ceremony which took place at 10 o'clock this morning, Saturday, November 10, 1923, in the the marriage room of the Central Christian church, when Miss Claire Adelaide Metzger of 4301 Perlita avenue, Los Angeles, became the wife of John Robert Buster of 118 North Orange street, Glendale. They were attended by the brother and sister of the bride, Albert L. Metz and Mrs. Susanne Worcester. Mr. Buster is a conductor on the Pacific Electric railway company's line. Mr. and Mrs. Buster will make their home in Glendale.

PARLIAMENTARY LAW SECTION TO MEET

The members of the Parliamentary Law section of the Tuesday Afternoon club, of which Mrs. C. A. Brandstater is curator, will meet at the club house on Teusday morning at 11 o'clock in the banquet room for a short business session. After luncheon Mrs. P. S. McNutt will have charge of the lesson. At 2:30 the section will adjourn for the regular club session.

MRS. BRYANT ENTERTAINS BROADWAY ROOM MOTHERS

Mrs. M. A. Bryant, visiting chairman of the Broadway P.-T. A. entertained the room mothers of the school Friday afternoon at her home at 1305 East Harvard. A very pleasant afternoon of games and visiting, calculated to promote acquaintance was enjoyed and refreshments were served by the hostess.

MEETING OF GUILD ATTENDED BY FOURTEEN

About fourteen were present at the meeting of St. Mark's guild held Thursday afternoon, at which considerable sewing and quilting was done. A luncheon was served at noon, and plans were made for the bazaar to be held in the Guild hall November 23, at which a dinner will be served at 7 o'clock, to which the general public is invited. It will be a formal housewarming of the Guild hall, which will be completed and decorated at that time.

MRS. MANBERT ENTERTAINS DELPHIAN CLUB THURSDAY

Members of the Delphian club were entertained Thursday afternoon at the home of Mrs. Manbert. Mrs. Paul Mason having charge. A meeting of the full chapter will be held at the home of Mrs. Manbert two weeks hence.

SEMI-MONTHLY CLUB IS ENTERTAINED

The Semi-Monthly club was charmingly entertained Thursday with a luncheon at the Casa Verdugo restaurant, followed by an afternoon of five hundred; twelve ladies being present. Mrs. Peter Ferry was winner of the first prize, the second being captured by Mrs. Chapius. Two weeks hence, the club will be entertained by Mrs. J. Monahan.

Y. L. I. DISCUSS PLAN FOR DANCE

A short business session was held by members of the Y. L. I. at the K. of C. clubhouse Thursday night, at which plans were discussed for a dance to be given in the course of the next two or three weeks. There was no program nor were there any social features.

MRS. FARRELL ENTERTAINS DOUBLE-SIX BRIDGE CLUB

Instead of meeting at the home of Mrs. J. O. Clark of 606 North Orange, the Double-Six Bridge club was entertained Thursday by Mrs. O'Neill Farrell at her home on Gardena. A delicious luncheon was served by the hostess before the ladies took their places at the card tables. Mrs. J. P. Clark will be the hostess at the next meeting of the club.

"I get Honolulu, Peru, Moscow and Desden on my wireless set," said Howard.

"Do you keep the windows open or closed?" asked Pard.

"It makes no difference."

"Well, I keep my windows open and get Chili."

Mr. William Schneider
and
Mr. Harry Devine

PACIFIC ELECTRIC RAILWAY

PHYSICIANS' CLUB HEARS FINE TALK BY DR. BRAINERD

Dr. H. G Brainerd of Los Angeles was te speaker of the evening before he Glendale Physician's club at th Glendale high school Thursday vening.

Both th experimental and practical studs in heredity that have been mad by scientists from the time of Mndel, the Austrian monk, to that o our own Luther Burbank were metioned.

Mende found that if tall and short pas were grown together, in the scond generation the seeds would roduce three tall plants to one shrt. He called the tendency to grow tall plants the dominant and fond that color and form would produce in the same ratio when itermingled.

The ork of Burbank in developing mre perfect flowers, fruits and plnts is the direct outgrowth of suc studies in mixing strains.

Simarly, animals, as is well know in the stock world, can be madebetter of worse according to the mating of strong or weak strais.

Intelligence in animals and humanbeings is also greater or less according to the ancestry of the offspring. An amazing study during he world war showed that out of 1,750,000 drafted between the ags of 20 and 30, 1,225,000 were unt physically or mentally and should not produce their kind. Physial defects are, however, much les serious than mental.

Feeble mindedness and insanity re both dominant in character and two are mater with such a famly tendency, the offspring show high percentage of mental defectives, criminals and so-called psycholpathic individuals.

That this is a problem demanding serious consideration is shown by the fact that there are over a thousand mental defectives on parole in Los Angeles county alone because of the crowded condition of our hospitals. Southern California is especially concerned in this problem, since it has a state hospital capacity of one to 219 voters, whereas Northern California has a capacity of one to 111, nearly twice the allotment for Southern California.

Dr. Boyer announced that a permit was granted by the council to build a hospital on the property acquired at Laurel and Brand by a group of Glendale physicians. The need for this was mentioned, due to the rapid growth of Glendale, and while the present institutions are making every effort to meet the increased needs of the city, there is still difficulty in getting accomodations for the sick. All physicians were invited to a meeting to consider the hospital plans, to be held at the office of Dr. O. A. Deterich, in the Ralphs' building, next Tuesday evening.

FLOYD F. THOMPSON,
Secretary of Club.

Mid-week meeting on Wednesday night at 7:30.

Bible and Missionary conference in the First Baptist church of Los Angeles, Nov. 14 to 16. A large registration from the First Baptist church of Glendale.

CONGREGATIONAL
North Central and West Wilson
Rev. C. M. Calderwood, Pastor
Howard Edward Cavanah, Director of Music

Miss Lilla E. Litch, Organist

9:30—Church school. Mr. O. E. Von Oven, Superintendent.

11:00—Service of morning worship. Sermon by Dr. E. Bennson of Portland, Oregon.

5:45—School of Mission. Address by Geo. F. Kenngott, D.D., at 6:30.

7:30—Evening service. Address by Rev. Charles W. Abel of New Guinea.

Musical Program

Morning—Organ prelude in G (Parker); anthem, "The Sun of Righteousness" (Gelbel); offertory "Pastorale" (Faulkes); offertoire from St. Cecelia (Batiste); duet, "Be Glad Ye Righteous" (Marks), Mr. and Mrs. Cavanah; postlude in A Minor (Calkin.

Evening—Organ prelude, "Andante" (Battishill); offertory, "Allegretto" Grazioso" (Tours); baritone solo, "O Lord, Be Merciful" (Bartlett), Myron Carman; postlude, "Grand Chorus" (Dubois).

FIRST METHODIST EPISCOPAL
Kenwood and Wilson
H. I. Rasmus, Pastor

Sunday morning Dr. H. I. Rasmus will preach. His subject will be, "The Gospel of Laughter."

At the evening service Rev. H. I. Rasmus Jr. will deliver an Armistice Day message, "The Price of Peace."

Music for Sunday

Morning—Prelude, "Adagio Pathetique" (Godard); anthem, "Gloria" (Mozart); offertory, "Air and Choral Sanctus" (Gaul), Mr. Dolberg and choir; postlude, "March in B Flat" (Faulkes).

Evening—Prelude, "Nearer My God to Thee" (Ryder); anthem, "Land of Mine" (McDermid) offertory, whistling solo, "Long Long Trail" (King), Miss Isgrid and Chorus; quartet, "Tenting on the Old Camp Ground," Dr. Lucas, Paul Butterfield, Frank Butterfield, Dr. Lusby; postlude, "Duke Street" (Whiting).

BETHEL CHAPEL
(Assembles of God)
633 E. Colorado
A. W. Frodsham, Pastor
Res., 721 Wing Street

10:00—Sunday school.

11:00—Preaching service, "The New Creation."

7:30. "The Two Roads to Heaven."

Wednesday, 7:45, Prayer, Praise and Tarrying meeting.

The sick prayed for at any time.

FIRST CHURCH OF THE NAZARENE
Rev. Henry Scheldeman, Pastor
Mrs Alice Evans, Sup't. of S. S.

Sunday school—2 o'clock.

Preaching at 3 p. m.

Young people meet at 6:45 p. m.

The services of this church are very helpful and a very deep spirit of worship is manifest at each service. If you have no church home you are invited to attend our meetings and worship God with us. Come!

CHURCH OF DIVINE REALIZATION
(New Thought Center)
Tuesday Afternoon Club House

Dr. Frank Riley of Hollywood will speak Sunday morning at 11 a. m. on "Prayer," in the Banquet hall of the Tuesday Afternoon club house, 400 North Central avenue, corner of Lexington drive. Visitors are cordially invited to attend.

At 10 o'clock a class will start in the study of one of Dr. Riley's new manuscript books called, "The Evolution Principles and Practice of Metaphysical Healing." Students and visitors are invited to attend.

The Sunday school for children meets at 10 and is under the able leadership of Mrs. Florence Gobelet.

ZION EVAN. LUTHERAN
(Missouri Synod)
Isabel and East California
Rev. Henry O. Kringel, Pastor
Res., 414 North Maryland Avenue

Divine services will be conducted, Sunday beginning at 10:00 a. m. Sunday school begins at 9 a. m.

All are cordially invited.

MONTROSE NOTES

Tonight is the night of nights for those who enjoy dancing. There will be very few residents of Montrose who do not attend the chamber of commerce dance in the auditorium of the La Crescenta school house. Elaborate plans for the affair have been completed and nothing has been overlooked that would tend to add to the delight of the evening. The music will be furnished by an orchestra from Pasadena.

Mr. Frank Turner Friday received word that Mrs. Turner successfully underwent an operation performed at the Hanhama hospital in San Francisco Wednesday. Every hope is held out for her complete and rapid recovery.

Mrs. A. C. Miller returned from the Glendale Sanitarium on Monday. She is getting along splendidly, her operation having been entirely successful.

Dr. M. Cleeves of Briggs avenue, La Crescenta, will deliver an illustrated lecture on Thursday evening, November 15th, in the La Crescenta school house. Many Montrose people are planning to attend the lecture, which will begin at 8 o'clock. "Builders of the Gothic Cathedrals" is the subject.

George Charbonneau believes so thoroughly in the value of Montrose and La Crescenta property that he has succeeded in buying back the house that he sold last year to Mrs. Mamie Larson. The property is situated on the corner of Altura and Los Angeles streets, La Crescenta.

Mr. Theodore Bellanger is having another large room added to his pleasant home in Sparr Heights.

Mrs. Leach, a former Montrose resident, now occupying a cozy cottage in Verdugo Woodlands, was pleasantly surprised when a number of her friends arrived Monday afternoon to spend a few pleasant hours in her new home.

SOUTHLAND IS WHITE SPOT OF WHOLE COUNTRY

That an almost unprecedented activity prevails in virtually every line of business in Southern California was indicated by a report comparing internal revenue collections for October, 1923, with those of the corresponding month of 1922, which was sent to Washington yesterday by Collector Rex Goodcell.

The outstanding feature of the survey was an increase of 85 per cent in the sales of documental stamps during October, and for the first four months of the fiscal year of 58 per cent. These stamps must be placed on all deeds for real estate, bonds, notes, debentures, and stock exchange transactions, and the marked increase in stamp sales reflects unusual business activity.

Receipts from the oleo tax increased 105 per cent for October, showing a production of 509,000 pounds.

Manuwacturers' tax on auto trucks made here gained 19 per cent in October, and 67 per cent for the first four months of the fiscal year. The tax receipts indicate manufacturers' sales of $1,958,000 for the four-months' period.

Manufacturers' tax in candy increased 26 per cent in October and 17 per cent for the four months, indicating manufacturers' sales for the latter period of $2,118,000.

Receipts from manufacturers' tax in purses and bead bags increased 70 per cent.

Collections of tax on fountain syrups gained 15 per cent, while carbonic gas used in fountain drinks developed a tax gain of 58 per cent.

Collections of capital stock tax increased 286 per cent for the month.

Admission taxes registered a gain of 33 per cent for October, indicating an amusement attendance of 14,400,000 and that $3,600,000 was spent for amusements. The gain for the four months' period was 31 per cent.

Dues and memberships in social and athletic clubs showed a tax gain of 40 per cent for October and 38 per cent for the four months' period.

Tax receipts from elephone and telegraph messages gained 30 per cent.

Taxes paid on retail sales of jewelry increased 77 per cent for the month, and the four months' period showed a gain of 45 per cent. The tax paid represents sales of $1,500,000 for the month, and $4,750,000 for the four months.

Income tax receipts increased 18 per cent for October, and 14 per cent for the four-months' period.

Total internal revenue collections for the four-months' period were $13,727,549, a gain of $1,844,651 or 15 per cent, while sales tax receipts as a whole showed a gain of 27 per cent.

To the Heroes of the World War

This day, although being set aside to commemorate the signing of the Armistice, is really also a tribute to the American soldier who fought that Democracy might live. Let us give them this day and celebrate in a suitable manner.

DAMAGED

THE LISTENING POST

How is your initiative?
Your go-aheaditiveness?
Your originality and courage of impulse?
Do you step out ahead of the procession?

JAMES W. FOLEY

Or are you content to follow along?

* * *

If anything happened to the Boss could you step in and run the place for the time being?

Lay out the day's work and give the necessary directions?

Find the money for the pay roll?

Or would you just run along in your own particular groove and let somebody else assume the responsibility?

* * *

It is an interesting speculation.

What could you do if you had to meet an emergency?

Would you rise to the situation?

Or would you shrink from it?

The difference between planning originally and following in somebody's else footsteps is the difference between initiative and the lack of it.

* * *

One time no doubt all men waded through a stream when they came to it.

Or swam through it if it was too deep to wade.

That was the simplest way to get across a stream.

And men did things the simplest way.

* * *

That is the way dogs do and horses and oxen and other animals.

They have no initiative.

They follow what we call instinct.

They wade or swim through a stream.

You never heard of a dog building a bridge across a stream.

* * *

But that is what some man did one time.

The wading of the stream was difficult and uncertain.

So some first man laid a couple of trees across the stream and walked across with dry feet.

He had initiative.

He did not follow in the footsteps of the stream-waders.

He stepped out ahead of the procession.

* * *

The first permanent shelter builded by man was a matter of initiative.

Instead of seeking a cave some man builded a cave out of doors or wherever he chanced to be.

He used logs and leaves and stones where he found them.

Built himself a house.

A matter of initiative.

* * *

Life has been advanced by initiative.

By men who shaped circumstances and did not follow blindly in the footsteps of other men.

The precursor of the modern stove was probably a heap of stones arranged to contain fire.

* * *

The first weapon of offense and defense may have been the bit of stone to be hurled at will.

And then some man fastened a handle to the stone by a thong and carried it with him.

Thus he did not have to depend upon finding stones to hurl.

Initiative again.

* * *

So how is your initiative?
Your go-aheaditiveness?
Could you boss a job with effectiveness?

Songs of the Poets

Alpha and Omega—By William Hamilton Hayne in Munsey's

How many years have slipped away,
Since this old planet, seamed and gray,
Was but an atom none could trace
Nursed on the boundless lap of Space,
No man can say.

How many years of joy and woe—
Life's flood tide and its undertow—
Shall slip away o'er land and sea
Until our world shall cease to be,
No man can know.

THE ART OF THE FUTURE

By DR. FRANK CRANE

ALEXANDER FINTA, a sculptor of reputation, recently said, upon his visit to America:

"I am in love with this country, and intend to remain here. I believe America is destined to supply the new lines of expression for which the world is looking. This American style, as it will be called, will be an improvement and modernization of the Gothic architecture. The characteristics of this style will be lightness, slenderness and plenty of light."

When one speaks of America as Mr. Finta thus speaks of it, what he really is referring to is the future of the human race. America has no past to speak of. Whatever glow it may arouse in the imagination is caused entirely by its future. The glory of such countries as Italy, Greece or China is almost entirely a phosphorescence from the past.

Art is strongly dominated by the past, because art is a matter of taste, and taste is highly conventional. We are quite likely to admire what it has been the fashion to admire for many generations.

However, there is no question of the intrinsic beauty of the Venus de Milo, Michelangelo's Moses or a Rafael Madonna. But beautiful as they may be, there is no reason to suppose that things as beautiful, and things more beautiful, cannot be produced in the future.

The possibilities of the future of America are quite as great as the past of Greece.

It is quite the vogue to sneer at progress and modernity, and to claim that our boasted advance is mostly clatter and show. But there is a real advance of the human mind and soul that is quite as significant as any improvement made in typewriters or railways.

The human mind has rid itself of an enormous load of superstition, provincialism and delusion. The human spirit is freer than it has ever been in the past. The human stock is just as strong and good in New York or London as it ever was in Athens or Babylon.

What humanity shall produce in the way of art is as millenial in its possibilities as what it shall produce in the way of transportation or invention.

We shall one day have cities more splendid than the Rome of Augustus, adorned with temples more imposing than that of Diana at Ephesus. And statues as sublime as the marbles of Greece.

There is no reason to suppose we shall not have works of literature that will outdo the writings of Homer or Shakespeare.

And, for that matter, we shall produce a nobility and divinity of character that shall far surpass anything produced in that dark and troubled age of the world that has often been called the Age of Great Faith, and we shall have a warmer, sounder, sweeter and stronger religion.

This is not a mere opinionated optimism. It is a reasoned and well grounded faith in evolution.

(Copyright, 1923, by Dr. Frank Crane)

OBSERVED AT A GLANCE

People of the United States are very busy, but should pause long enough to express gratitude for it.

* * *

A wife sues for separation on the grounds that her husband constantly nags her. In a similar case recently a judge ruled that "men never nag."

* * *

Courts are beginning to take the view that a worthless bail bond is worthless.

* * *

Airplaning for ducks may be exciting, but it is not legitimate sport.

* * *

Some star movie salaries are to be less, but still, compared with pay in other lines, they will bulk impressively.

* * *

The heat energy of the stars has been charted, but otherwise nobody has succeeded in utilizing it.

* * *

It seems that this part of the country was settled some 35,000 years ago, but for some reason the settlers did not stay.

* * *

If Thanksgiving day were a feature in other lands there might be difficulty in devising a convincing proclamation.

* * *

Little Jugo-Slavia sends a note to Bulgaria calling the latter down. And Bulgaria comes down.

* * *

The plot to kill Mexican politicians probably will be found to be somebody's pipe dream.

EASTERN POINT OF VIEW

WAY TO ENFORCEMENT

[Springfield Republican]

The ultimate remedy is for the people who put through prohibition and now desire its success to go into politics themselves and obtain direct control of those official positions, high and low, from which enforcement derives its strength. If they leave enforcement to the old class of politicians and job hunters they will never get the enforcement that the law should have. Prohibitionists may still work within the major party lines, but they must seek to place in executive posts those who are in personal sympathy with the law and will fight for the law's supremacy. They must even make personal sacrifices and seek these executive posts themselves. For obstruction to law enforcement is as easy as sabotage in a factory, if those who are indifferent or hostile are intrusted with its enforcement. There is no other effective approach to the final solution of the enforcement problem.

NOT AMERICANISM

[Chicago Tribune]

A small group of fanatics marred New York's cordial welcome to David Lloyd George by carrying banners blaming the former British premier for Ireland's woes, and by bomdarding his party with eggs. Probably no harm was done thereby except to the Sinn Fein cause, and possibly to New York's reputation for courtesy. But as a public exhibition of bad manners the demonstration may be worthy of comment.

THE TWELVE SENT FORTH, TWO BY TWO; JESUS' EULOGY OF JOHN THE BAPTIST

THE GOSPEL ACCORDING TO MATTHEW

And their sight was restored. Jesus warned them sternly not to let anyone hear of it. But they went out and spread the news about him all over that part of the country.

But just as they were going out, some people brought to him a dumb man who was possessed wit ha demon, and as soon as the demon was driven out, the dumb man was able to speak. And the crowds were amazed, and said,

"Nothing like this was ever seen in Israel!"

But the Pharisees said,

"It is by the aid of the prince of the demons that he drives them out."

Jesus went round among all the towns and villages, teaching in their synagogues, and proclaiming the good news of the kingdom, and curing any disease or illness.

But the sight of the crowds of people filled him with pity for them, because they were bewildered and dejected, like sheep that have no shepherd. Then he said to his disciples.

"The harvest is abundant enough, but the reapers are few. So pray to the owner of the harvest to send reapers to gather it."

Then he called his twelve disciples to him, and gave them power over the foul spirits so that they could drive them out, and so that they could heal any disease or illness.

These are the names of the twelve apostles: first, Simon, who was called Peter, and his brother Andrew, and James the son of Zebedee and his brother John, Philip and Bartholomew, Thomas and Matthew the tax-collector, James the son of Alpheus and Thaddeus, Simon the Zealot and Judas Iscariot who afterward betrayed him.

Jesus sent these twelve out, after giving them these directions:

"Do not go among the heathen, or to any Samaritan town, but proceed instead to the lost sheep of Israel's house. And as you go about, preach and say, 'The Kingdom of Heaven is at hand!' Cure the sick, raise the dead, heal lepers, drive out demons. Give without payment, just as you received without payment. Do not accept gold or silver or copper money to put in your pockets, and do not take a bag for your journey, nor two shirts, nor shoes, nor a staff, for the workman deserves his food! Whatever town or village you come to, inquire for some suitable person, and stay with him till you leave the place. And as you go into his house, wish it well. If the house deserves it, the peace you wish it will come over it, but if it does not deserve it, your blessing will come back upon yourselves. And where no one will welcome you, or listen to you, leave that house or town and shake off its very dust from your feet. I tell you, the land of Sodom and Gomorrah will fare better on the Day of Judgment than that town.

"Here I am sending you out like sheep among wolves. So you must be wise like serpents, and guileless like doves. But be on your guard against men, for they will give you up to their courts, and have you flogged in their synagogues, and you will be brought before governors and kings on my account, to bear your testimony before them and the heathen. But when they give you up, you must have no anxiety about how to speak or what to say, for you will be told at the very moment what you ought to say, for it is not you who will speak, it is the Spirit of your Father that will speak through you. One brother will give up another to death, and a father his child, and children will turn against their parents, and have them put to death. You will be hated by everybody on my account, but the man who holds out to the very end will be saved. But when they persecute you in one town, make your escape to another, for I tell you, you will not have gone through all the towns of Israel before the Son of Man arrives. A pupil is not better than his teacher, nor a slave better than his master. A pupil should be satisfied to come to be like his teacher, or a slave to come to be like his master. If men have called the head of the house Beelzebub, how much worse names will they give to the members of his household! So do not be afraid of them. For there is nothing covered up that is not going to be uncovered, nor secret that is not going to be known. What I tell you in the dark you must say in the light, and what you hear whispered in your ear, you must proclaim from the housetops. Have no fear of those who kill the body, but cannot kill the soul. You had better be afraid of one who can destroy both soul and body in the pit. Do not sparrows sell two for a cent? And yet not one of them can fall to the ground against your Father's will! But the very hairs on your heads are all counted. You must not be afraid; you are worth more than a great many sparrows! Therefore everyone who will acknowledge me before men I will acknowledge before my Father in heaven, but anyone who disowns me before men, I will disown before my Father in heaven.

"Do you not think that I have come to bring peace to the earth. I have not come to bring peace but a sword. For I have come to turn a man against his father and a daughter against her mother and a daughter-in-law against her mother-in-law, and a man's enemies will be in his own household. No one who loves father or mother more than he loves me is worthy of me, and no one who loves son or daughter more than he loves me is worthy of me, and no one who will not take up his cross and follow me is worthy of me. Whoever gains his life will lose it, and whoever loses his life for my sake will gain it.

"Whoever welcomes you welcomes me, and whoever welcomes me welcomes him who has sent me. Whoever welcomes a prophet because he is a prophet will have the same reward as a prophet, and whoever welcomes an upright man because he is upright will have the same reward as an upright man. And no one who will give the humblest of my disciples even a cup of cold water because he is my disciple, I tell you, can ever fail of his reward."

When Jesus had finished giving his twelve disciples these instructions, he went on from there to teach and preach in their towns.

Now when John heard in prison of what the Christ was doing, he sent by his disciples and said to him,

"Are you the one who was to come, or should we look for someone else?"

Jesus answered,

"Go and report to John what you hear and see. The blind are regaining their sight and the lame can walk, the lepers are being cured and the deaf can hear, the dead are being raised and good news is being preached to the poor. And blessed is the man who finds nothing that repels him in me."

But as they were going away, Jesus began to speak to the crowds about John.

"What was it that you went out into the desert to look at? A reed swaying in the wind? Then what did you go out there to see? A man luxuriously dressed? Men who dress in that way you find in the palaces of kings. Then why did you go out there? Was it to see a prophet? Yes, I tell you, and far more than a prophet! This is the man of whom the Scripture says,

"'Here I send my messenger on before you;
He will prepare the road ahead of you.'

(Copyright, 1923, by The University of Chicago)

TREND OF FASHION

By HELEN MERRILL EMERY

In Excellent Taste is a Suit of Green Kasha Duvetyne

For a time one heard much about the new length of suit coats, a length that reached well below the knees, but recently there have appeared a number of models whose coats are short and fashioned on loose lines. They are engagingly youthful and with their bell sleeves and soft bandings of fur are among the loveliest suits that have been seen for many a day.

Materials are beautiful and lend themselves well to decoration of embroidery or braid, which in combination with fur, trim the majority of the handsomest suits.

Many of these coats are frankly Chinese in line, others are cut like the blouse of a Russian peasant. Several reveal the slight flare but the flare must be managed with not a little skill or the effect will be hopelessly dowdy.

Nothing could be more attractive than the suit sketched. Although it is appropriate for occasions of formality, it is not out of play for shopping.

The material, a soft kasha duvetyne a rich deep green in shade, is set off by bands of otter fur. Braid of the same tone trims the skirt and appears as a continuation on the coat.

Although many of the suits are three-piece, just as many have separate blouses and these have never been so lovely. They are of every material, but the most beautiful are those fashioned of brocaded chiffon velvet or stunning brocades in gold and silver.

U. S. Drops to Sixth in World Shipbuilding

[By Associated Press]

WASHINGTON, Nov. 10.—The United States has dropped from first to sixth place among the shipbuilding nations of the world in the last four years, the Department of Commerce states. Not only Great Britain and Germany, but also Italy, France and the Netherlands are building more tonnage than the United States, according to returns for the quarter ended with September. World construction at the close of that quarter was smaller than at any time since the war and represents a decline of 165,000 gross tons in comparison with the quarter ended with June.

BUILDING PERMITS

November building permits are now approaching the quarter of a million dollar mark.

Business was resumed this morning in the office of H. C. Vandewater, superintendent of the building department, with $230,124 to the credit of the month. The year's total to date was $8,341,561.

Permits issued recently include the following:

Ernest Green, garage, 1204 Spazier	$ 250
W. C. Perry, addition, 212 East Palmer	450
Mrs. Curtis Moore, garage, 464 West California	200
Louis J. and Louis M. Donahoe, 5 rooms and garage, 739 Wing	3850
D. P. McIver, repairs, 533 Riverdale	425
McCaleb, 5 rooms and garage, 1355 Bruce	3800
Charles H. Smith, 10 rooms and garage, 1385 East Garfield	5000
J. C. Marshall, garage, 1247 Allen	150
C. E. Jernagan, 6 rooms and garage, 536 West Dryden	3000
W. I. Taggart, 6 rooms and garage, 300 Vallejo	5000
D. W. Sibeck, 5 rooms and garage, 566 Spencer	3500
Robert Gerth, 4 rooms and garage, 1064 Ealm	2500

Colonel Henry Watterson used to tell the following, years before prohibition was dreamt of, but it doubtless gained in value after Volstead. An old darky down south was informed that if he was bitten by a snake and drank a quart of whiskey the snakes would die and he would go unscathed. "Dar's only one trouble about dat cure," the old man said. "I knows where dere's plenty snakes, but whar's I gwine ter get de whiskey?"

NOTHING IS LACKING IN CASTLE HEIGHTS--PLACE OF LOVELY HOME LOCATIONS

No Tract in the Entire Northwest Is More Desirable for Home Purpose Than Is This Tract Supreme—It's a Jewel

FINISHING TOUCHES BEING PUT TO STREETS

This Subdivision Is More Than Half Sold Ou and There's a Reason; Maybe It's Because the Pries Are Right and the Terms Are Easy

Gradually the charms of Castle Heights, that beautiful home location that snuggles close up against the green Verdugo, hills are becoming known. Slowly but surely that section's wonderful home qualities are "taking hold" of those who are desirous of securing the best along the home site line.

This fact is in a large measure responsible for the snappy way in which the lots in this tract are being selected by prospective home builders.

When considering the purchase of lots in foothill tracts it should be remembered that there is a limit to this foothill property. Therefore the person who is some day expecting to build a little home nest up close to the sagebrush had better select that lot without delay. It never will be cheaper and, as the homesites become scarce, the prices asked for them will rapidly advance in price.

Castle Heights is next door to Brand's castle. It is close to the place where, years and years ago, Mr. Brand selected as the most beautiful spot in the entire valley. Money could not buy the Brand estate, but a very little will purchase a home site in this tract.

Fifty thousand dollars' worth of property, representing half of the lots in Castel Heights, have already been disposed of, according to the owners and subdividers of the tract, Hamlin & Hepburn, 203 West Broadway, Glendale. This tract, which is one of the most beautiful pieces of land out-of-door is situated on Mountain street, immediately adjoining the golf coure of L. C. Brand.

The prices at which theselots are being sold—$1750 to $250—have a great deal to do withthe volume of sales in this tract. The terms, too, are an important eature. These lots are being soldon a down payment of $300 with 2 per cent per month.

Everything in the way of improvements is included in the pris —curbs, gutters, sidewalks an good macadam streets.

The grade stakes for Wincheste and Mountain streets in this trac have been set and within a few days the work of street grading will be under way and it will be rushed to completion.

There are just a few lots left in this tract. The wonderful view that may be secured from these home sites and the cooling breezes that come direct from the Pacific to this tract have literally compelled sales. It is only necessary for the owners of this tract to show the property—the charm of the tract does the rest.

Deaths and Funerals

MRS. RHEA MEREDITH BROWN

Mrs. Rhea Meredith Brown, wife of Ray E. Brown of 3826 Homer street, Los Angeles, passed away November 8, 1923, at the age of 32 years. She was a native of Indiana and had resided in California for the last 16 years. Funeral services will be held at 2 o'clock Tuesday afternoon at the Little Church of the Flowers, with interment at Forest Lawn. L. G. Scovern Undertaking company is in charge of arrangements.

AUTOMOTIVE SECTION

GLENDALE, CALIFORNIA, SATURDAY, NOVEMBER 10, 1923

THE COP 'LL GET YOU IF YOU DON'T WATCH OUT

NEW PARKING ORDINANCE OF GLENDALE GOES INTO EFFECT TODAY--LOOK OUT!

New Law Provides for One-hour Parking on Brand Blvd., From Colorado to Wilson and on Broadway From Louise to Central Avenue

ALSO REGULATES PARKING ON SIDE STREETS

This Ordinance Is an Attempt to Relieve the Parking Congestion in the City's Business District; Greater Number Will Be Served

Watch your step, Motorists!

Glendale's new one-hour parking ordinance goes into effect today. This covers all parking on Brand boulevard from the north line of Colorado street to the south line of California avenue on Brand boulevard, and on Broadway from the west line of Louise street to the east line of Central avenue.

Hereafter, beginning today, the parking time within these zones will be one hour. If the motorist parks longer than that time he will get a little ticket and when he appears before the judge he may get, well, possibly 60 days in that cannery—who knows.

The various sections of the ordinance are as follows:

Title of Ordinance

"An ordinance regulating the parking of vehicles on the streets and alleys of the city of Glendale."

Parking Instructions

It shall be unlawful for any person, firm or corporation to park any vehicle or to cause or permit to be parked or to stand on either side of Brand boulevard between the north line of Colorado street and the south line of California street, or on either side of Broadway between the east line of Louise street, in the city of Glendale, between the hours of 10 o'clock a. m. and 6 o'clock p. m. on any day except Sunday or a legal holiday for a longer period of time than one hour.

Parking in Alleys

It shall be unlawful for any person, firm or corporation to park any vehicle or cause or permit any vehicle to be parked or to stand in any public alley in the city of Glendale; provided, however, that nothing in this section sall be deemed to prohibt the standing of vehicles in public alleys for the purpose of and while engaged in loading or unloading merchandise or loads of any kind onto or from such vehicle.

Stopping—Parking on Side Street

It shall be unlawful for the driver of any vehicle to stop the same or cause the same to be stopped in or upon any street unless the right front and rear wheels of such vehicle are not more than one (1) foot distant from the curb of such street and headed in the direction of the traffic passing on the side of the street on which the same is stopped; provided, however, that the provisions of this section shall not apply in case of emergency or when such stop is made for the purpose of allowing another vehicle or a street car or interurban railway car or a pedestrian to pass in front of such vehicle so stopped, or when in compliance with an order or signal of a police officer; provided, however, that the provisions of this section shall not be deemed or construed as applying to any vehicle standing or parked upon the following named streets when such vehicle is standing or is parked at an angle of forty-five (45) degrees with the curb with the front of the vehicle towards the curb and shall be headed in the direction of traffic passing on the side of the street on which the same is standing or parked, with the right front wheel not more than one foot from the curb:

On either side of Brand boulevard from the north line of Los Felix road to the north boundary of the city limits; on the south side of California avenue from the east line of Central avenue to the west line of Louise street; on the south side of Central avenue from the side of Wilson avenue from the east line of Central avenue to the west line of Louise street; on the south side of Broadway from the west line of Brand boulevard to the east line of Central avenue; on either side of Harvard street from the east line or Central avenue to the west line of Kenwood street; on the south side of Colorado street from the east line of Central avenue to the west line of Kenwood street; on the west side of San Fernando road from the north line of Brand boulevard to the south line of El Bonita avenue; on the west side of Central avenue from the north line of Colorado boulevard to the south line of California street; on the east side of Maryland avenue between the south line of California avenue and a line two hundred (200) feet south of and parallel to the south line of California avenue; on the west side of Louise street between the north line of Wilson avenue and a line two hundred (200) feet north of and parallel to the north line of Wilson avenue; on the west side of Louise street between the south line of Elk avenue and the north line of Lomita avenue; on the east side of Kenwood street between the south line of Wilson avenue and a line parallel to and two hundred (200) feet south of the south line of Wilson avenue; on the east side of Isabel street between the south line of California street and a line two hundred (200) feet south of and parallel to the south line of California street; on the east side of Cedar street between the north line of Broadway and a line two hundred (200) feet north of and parallel to the north line of Broadway; on the east side of Central between the north line of Lexington drive and a line two hundred (200) feet north of and parallel to the north line of Lexington drive.

Purpose of Ordinance

The passage of this ordinance, which is, in a way, amending a three-hour parking ordinance which was found to be impracticable, is an attempt on the part of the council to relieve the parking congestion which has existed on Brand and Broadway between the streets named.

It is believed that this ordinance will do a great deal toward stimulating business in the various stores and offices along the two streets, as it will permit more people to get to the stores, instead of being compelled to go out of town for necessities.

At least three times as many people will be able to find parking space in the future than have been able to do so in the past if this ordinance is enforced to the limit. There will be three one-hour stops where there formerly was one three-hour stop

MOTORISTS FLOCK TO SOUTHERN CALIF.

Whole flocks of automobiles, as thick as quail used to be in California, are pushing westward over the trans-continental highways this month.

Such is the news just brought back by officials of the Auto Club of Southern California who have spent two weeks investigating actual highway conditions throughout New Mexico, Arizona, and the eastern part of this state.

More than 300 motor cars a day, headed westward, were passed by the club officers. Check was kept on these cars according to the state from which they were coming.

For instance, during one day twenty-six autos bearing Kansas license plates were encountered. There were thirty-nine coming toward this part of America from Colorado. From Ohio there were eighteen on one day and twenty-seven on a second day. Virginia contributed one auto in five days to swelling the population of the southern part of California. Michigan, Iowa, Indiana, Texas and Pennsylvania were notably heavy contributors to the congestion on the trans-continental highways.

According to the report just issued by the auto club, the western terminals of the long, long trails have never been in better condition for travel than at the present time.

Actual hordes of motorists are escaping to the Pacific Coast from the freezing eastern states for the winter, it is reported.

All sorts of vehicles are being used in this westward migration. They are coming in flivvers, on bicycles, on motorcycles, and in traveling palaces, and all are avidly questioning each one they pass as to industrial conditions in the southern counties of California.

HEADLIGHT HINTS YOU SHOULD REMEMBER

The bulb in some automobile headlights can be moved slightly backward or forward by adjusting a small screw. To focus a bulb, allow light to shine on a wall 25 feet away. Move bulb backward and forward until the circle of light on wall is of smallest possible diameter The majority of headlight devices call for this adjustment. A few call for an adjustment either behind or ahead of the focal center; correct adjustments for either position give largest possible spot of light without a dark or shaded center.

Headlights should be tilted up or down as required by the different types of headlight devices. Car vibration easily changes the tilt and focal adjustments; frequent tests and readjustments are necessary.

Spot light should be installed as high up on the car as practicable. It should be impossible to make the center of its beam of light strike the level highway more than 50 feet ahead of the car; except when swung 30 degrees to right or left or straight ahead position, then no limitation is placed on the height to which the beam may be raised. Size of lamp used in spotlight should not exceed a rating of 21 candle power.

Always carry a spare bulb for your headlights, the same as you do a spare tire.

Headlight lens may loosen and rotate in the frame; inspect it frequently, adjust and tighten if necessary.

Reflectors need careful attention.

Replace dented reflectors.

Replace or replate tranished or rusted reflectors.

Finger prints mar surface of reflectors; use soft cloth when handling.

When wiping reflector, use soft cloth and wipe from center outward to rim, not round and reund.

If lens breaks, tie a paper or cloth over headlight until lens can be replaced.

CLOSED CAR NOW COMES INTO DEMAND

DETROIT, Mich., Nov. 17.—Closer car production of the Paige and Jewett plants has shifted from approximately 60 per cent of the total to 80 per cent of the total output in November.

With the making of tentative schedule for the month comes the information from H. M. Jewett, president, that the new five-passenger Jewett Brougham was largely responsible for changing the ratio of production.

"The new brougham," says Mr. Jewett, "with its 31-inch inch doors and high bake enamel finish, providing a lasting lustre, has taken the public fancy. Every dealer in the Paige and Jewett organization sold out his allotment of broughams before October was half over. An increase number in November has been asked by all. This reception of a new model is almost without precedent."

The brougham has been on the market since September 30. At the time it was announced there were many skeptical persons, including dealers in the Jewett organization who said that it was not possible to build such a high bake enamel finish job on a wooden frame.

When the dealers, throughout the United States, found that the factory had actually accomplished this seemingly impossible feat, orders poured in," states Mr. Jewett. "As a result, we are unable to supply the demand until the November schedule of production starts."

Regarding the closed car, Ralph Bliss, local Paige and Jewett dealer, 306 East Colorado, says, "We can't get enough of them."

DID YOU KNOW?

That sliding the wheels is the most effective way of stopping quickly? Actual tests have shown that if the wheels are locked when a machine is traveling fast the tires slide freely and the car loses very little momentum in the first few seconds which are of utmost importance. The driver who can apply a force on the brake bands just short of the maximum required for loking the wheels is certain to have 100 per cent better results. When the fheels are locked the only braking surface is the contact of a small portion of the rubber tires of the two rear wheels with the roadway. When the wheels are not locked the braking is done at the brake bands where it should be.

'CAD' MAKES GOOD IN TRIP FROM RUSSIA

From Bloemfontein, South Africa, to Petrograd in Soviet Russia, the extremes of experiences in motor car driving were related in two letters recently received by the Cadillac Motor Car company.

Thomas Hill, a Cadillac owner, who lives in Kimberley, at the center of the South African diamond district, writes of his experiences in traveling from Kimberley to Bloemfontein, a distance of 116 miles, through sand and almost impassable roads, returning the next day. He states that at places the road descended into the veldt, so that it became a mere track of sand. Mr. Hill covered the distance in four and one-half hours, and in spite of a blazing sun and torrid winds, only a cup and one-half of water was lost from the radiator.

Court Motor company, 235 South Brand boulevard, are Glendale representatives of the Cadillac.

BRAKING POWER OF 'RICK' IS SHOWN

There are stunts—and stunts. A Los Angeles driver was recently put in charge of demonstrating the new four-wheel brake Rickenbacker and putting it through its paces. Last week he hit upon a novel scheme of showing the tremendous braking power of the latest Rickenbacker feature—something distinct and new.

Scene—Quintero hill, just off Sunset boulevard.

Figures in the foreground—three Rickenbackers, the one at upper left being equipped with brakes on all four wheels.

And here is the lay—Instead of the forward car pulling the other two up hill to show its marvelous drawing capacity, the rear car is holding the two forward cars and preventing them from rolling down hill.

But the Rickenbacker four-wheel brake car held itself and two of its fellows, a combined weight of 8700 pounds.

WHY TAKE SO MANY CHANCES, ASKS BOOTH

"A fellow never needs insurance until the crash comes," said Clinton Booth, who handles automobile insurance exclusively at 116 West Colorado street. "When the mishap occurs he needs it in the worst way, but unfortunately it is too late, then, for him to get it.

"You know you can depend on your own driving—but what about the other fellow? You may keep to the right and not cut dangerous corners, but you're putting lots of faith in the unknown driver if you don't cover your car with insurance—now.

"We are handling more insurance today than ever before. There is a reason for this. It is simply that the motorists of today are realizing the value of insurance of this character.

The Reason for a New Car

The success of the Star Car in its first year—the production and sale of 125,000 cars—phenomenal as it appears to the outsider, surpassing as it does the record for first year sales of any other car ever produced, yet did not satisfy its builder.

Mechanically, even Durant could find no flaw, could suggest no improvement on his first design. But, in planning the second year's output, he determined to add to the beauty and refinement of the Star Car, and to produce perfect harmony between chassis and body excellence.

This is the reason behind the NEW 1924 STAR CAR.

This insatiable desire for perfection of all that is given to the world in Durant's name has led to changes in Star Car body design, taking the form of long and curving stream lines, new and vastly more beautiful radiator and hood, better springs and heavier padding in the upholstery, overlapping doors with curtains opening as one with doors, spark and gas control at wheel, dashlight and nickel trim to instruments mounted on curved dashboard.

TRANSMISSION OF CHANDLER GOOD BRAKE

How many braking systems has your car?

Three.

Yes, three is the correct answer. Many drivers, especially those who never drive in hilly regions, do not know it, but every car has three braking systems.

They are the service brake, the emergency brake, and the engine.

The engine, though the most effective and most economical of the three brakes, is the least used. Engineers of the Chandler company say that the coming of the Traffic transmission, the new Chandler gearset that permits one to shift gears without possibilty of failure at any time, from low to high or from high to low, is going to prove of immense educational value to the drivers of all makes of cars, by demonstrating the value of the motor itself as a means of checking or holding down the speed of the automobile.

The action of the engine is much like that of a governor, preventing the vehicle from exceeding a certain speed. Try this out yourself some day. Note how easily you can push your car, with gears in neutral, on a level surface. Then try it in high gear. You may be able to move it but the resistance will be considerable. Then engage low gear; you will soon give up your effort to move the car by main strength.

Descending a hill in gear means that you are forcing gravity, through the action of the transmission and the gearing, to spin the engine continuously. In high gear, the engine is turned slowly. In low, the engine must turn correspondingly faster.

The reason the braking power of the engine is neglected by most drivers is that they are unable to shift freely into low gear. With the 1924 Chandlers Traffic transmission, second and low gears can be engaged at any time during the descent. The driver going down an unknown hill need not change his gears until he sees that it is necessary. Then, because of the feature of the transmission that makes gear changing entirely independent of the speed of the car and the engine, he can engage a low gear infallibly, ease in his clutch, and utilize the braking effect of the motor to its utmost.

The Chandler is handled in Glendale by Smith & Howe, 116 North Maryland avenue.

FORTY PER CENT OF ALL MONEY RECEIVED FROM GAS TAX TO BE SPENT IN SOUTH

(Continued from Page 1.)

be used in the repair of the roads of Southern California, according to a statement issued by Robert H. Morton, state highway engineer. This means that 40 per cent of all money collected in the state from the new gasoline tax will come south and be spent in the repair of the roads of this section.

"Between fifty and sixty miles of southern highways ought to be repaired," said Mr. Morton, "and we plan commencement of reconstruction work as soon as funds are available for this purpose from the new gasoline tax and the motor vehicle receipts. Our general plan is to let contracts this fall for work to be done next year. In Southern California, however, I anticipate that repair work will go forward during the coming winter."

The program contemplated by the commission for Southern California, will, according to the engineer, place practically all roads in that section of the state in excellent condition. The high type of roads existing in the South, he said, makes maintenance an easy matter.

Throughout the state generally the commission plans to reconstruct 364.7 miles of highways during 1823-24. Approximately 3,926 miles of improved roads will also be maintained.

Morton definitely pointed out that money derived from the gasoline tax and motor vehicle fees cannot be used to extend the present highway system. Construction of new roads, he said, except for those completed with the present building fund, will have to wait until some further financing policy has been adopted.

Construction of a new 16 mile unit on the road connecting El Centro with Yuma, Arizona, will, however, be undertaken under the present funds, he said. Plans and specifications are now being prepared by the engineering offices of the commission in Los Angeles, and as soon as they are completed, building work will commence.

The unit under consideration, said Morton, extends in a westerly direction from the Colorado river. Work is expected to begin this winter.

Another important announcement made by the State Highway commission is that two new divisions of that organization will soon be established in Southern California.

E. Q. Sullivan, former assistant engineer at Red Bluff headquarters, has been selected, Mixon said, to take charge of one of the new branches which will direct operations in San Bernardino, Riverside and Imperial counties. Sullivan will be located in San Bernardino.

F. G. Somner, former division engineer at Willets, will assume charge of the other divisions with offices at Bishop. The division will include Mono and Inyo counties.

The Highway commission has decided on this move in the South to expedite construction work and simplify problems of administration, Mixon said. "Several construction projects are in contemplation in the South," said Mixon, "and the road leading across the desert and making an inter-state connection at Yuma, Ariz., is of supreme importance to all of California."

Commenting on the California highway situation generally, Mixon said:

"Taking the highway system of California as a whole, the state has nothing for which to make apology as compared with the road systems of other states, but there is room for improvement, and if California is to lead in the future as in the past, this subject of road system must be given the earnest attention of the best minds in the state.

"Good highways and plenty of them mean not only more comfort for the inhabitants of the state, but on them depend the prosperity of all the people. It is a question in which the present highway commissioners, men of keen intellect and vision, are vitally interested, and one to which they are devoting their efforts.

"It has been estimated by the engineering department of the commission that it will require at least $200,000,000 in addition to the millions which have already been spent, to give the state anything like an adequately completed system of main line and connecting roads.

"To raise this vast sum, without overburdening the tax payers is one which must be solved and solved quickly."

'JUST COUNT THE CHEVROLETS'-- SLOGAN

During the last year or two the Chevrolet slogan, "Just Count the Chevrolets," has been on everyone's tongue. Everybody, it seems, has been talking about the remarkable increase in the number of Chevrolet cars seen on city streets and country roads. Stand on any corner for ten minutes and the number of Chevrolets that pass is surprising.

All this is due to the tremendous increase in the manufacturing facilities of the Chevrolet Motor company.

In 1921, 77,605 Chevrolet cars andtrucks were sold in the United States, in Canada and for export. In 1922 more than three times this number were made and sold, or 242,373. In the calendar year of 1923, nearly two times the 1922 total will be sold.

Production capacity has been increased to approximately 2,500 cars per day this year, an increase of several hundred per cent within the short space of three years.

During the past three years the growth of Chevrolet manufacturing facilities has been nothing short of phenomenal.

The main plant at Flint has been increased to a total floor space of 1,335,000 square feet. The St. Louis assembling plant totals 1,127,800 square feet. The Oakland assembling plant has been increased to nearly a half million square feet, while the Terrytown assembly plant now exceeds this by 50 per cent. A large plant formerly devoted to other General Motors Corporation business at Janesville, Wis., has been changed into an assembly plant for Chevrolet, with floor space of nearly a half million square feet. And, in addition, new plants have been erected at Buffalo, N. Y., and Cincinnati, O., totaling together over a half million square feet.

Floor Space Over 5,500,000 Square Feet.

Other plants, engaged in the production of Chevrolet axles, gears, forgings, transmissions and small parts, in Detroit, Toledo and Bay City bring the grand total of floor space devoted to the manufacture and assembly of Chevrolet cars, trucks and parts up to the tremendous figure of 5,427,393 feet. The grand total of the floor space, devoted to the manufacture of Chevrolet cars, trucks and parts, to well over five and one-half million square feet.

This amounts to the huge total of more than 126 acres of floor space.

The number of employes in the twelve plants devoted exclusively to the manufacture of Chevrolet cars, trucks and parts now totals 22,675, and is constantly growing.

To the man in the street the fact that he sees many Chevrolets in operation conveys little idea of the tremendous manufacturing facilities and huge financial resources necessary to achieve the production which supplies the enormous demand for this popular car.

These facts and figures give some idea of what is back of Chevrolet.

"This brief story of the Chevrolet is interesting and every word true," said C. L. Smith, Colorado and Orange, local dealer for this car.

"Right now the new Sport is going over big. It is proving to be a real sensation."

NEW STAR PROVES SURE ENOUGH PULLER

Dilley & Armstrong, 115 West Harvard street, dealers for the Star automobile in Glendale, are now in third place in Los Angeles county in the sale of automobiles, according to word received by this firm this morning.

"The people of Glendale are just beginning to realize the real worth of the Star car," said Mr. Dilley. "We can prove that it is the best machine on the market today for the price. Never in my fourteen years' experience in selling automobiles have I seen so much enthusiasm shown in connection with a new automobile. The people have literally gone wild over this little car. Hardly a daylight hour passes but one or more sales of this car is made at our offices.

"And there is a reason for all this activity."

In body design the new Star is entirely different from the original machine. Quite a number of new and important changes have been made in the design of the machanical part of the car—all of which add to the desirability of the machine.

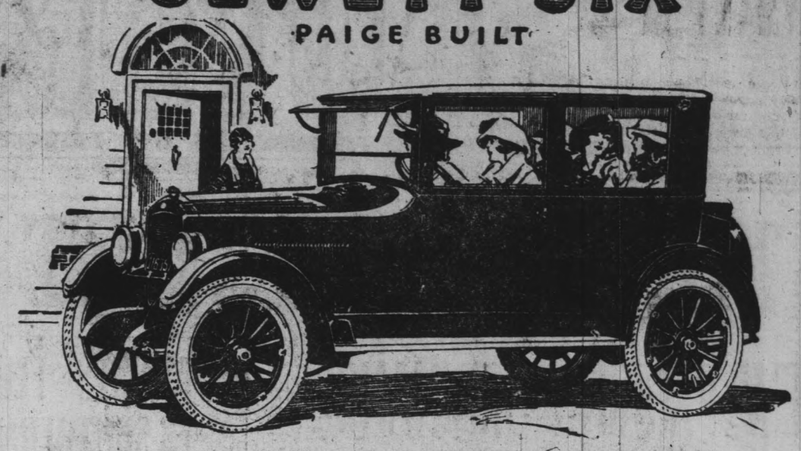

THING A BIT FIRST

A common failing of the owner of a new car is to rush to his dealer the moment he doesn't quite understand something in regard to its operation. It consumes his time—and the dealer's—and is the best argument for giving the matter a little careful thought before inquiring. One driver recently complained to his dealer because they had not given him a key to the door of his new closed car. It developed that the ignition switch key was also the door key. The owner might have saved himself a lot of annoyance if he had figured it out for himself.

(Copyright, 1923, by The Ullman Feature Service)

JEWETT SIX

PAIGE BUILT

Think of an Enclosed Jewett at $1325

Never a Body Built Like This Brougham—Baked Enamel Finish, Wood Frame

THIS new 5-passenger Jewett Brougham is a triumph of enclosed body construction. Never was such a body built before. And it's not to be had on any other car. An enclosed Jewett FOR BUT $1325!

Paige designers have done what was said to be impossible—combined a permanent baked enamel finish ALL OVER THE CAR on steel panels—with a wood frame. Wood, because wood absorbs vibration, eliminates "drumming" and reduces noise to nil.

Each steel body panel is dipped in enamel and baked three separate times, with a rub between each coat, then fastened to the wood frame. Baking is done separately because the intense heat required to bake enamel would warp wood.

Jewett Brougham has a smart, glossy, *permanent* finish ALL OVER THE CAR that you see on fenders ONLY of other cars. It stays good-looking—no attention needed other than washing. You'll marvel at this finish achieved by Paige engineers.

Cleverest seating arrangement for 5 adults you ever saw! Two individual front seats, both folding forward. Easy entrance and exit for all passengers on either side. Ample leg room front and rear. Rear seat 46½ inches wide, seats three. Rear cushion is removable, giving ample carrying space for merchandise, luggage or sample trunk.

And this new type Brougham is mounted on the famous, sturdy Jewett Six chassis. You know what that means—full 50 h. p. 6-cylinder motor, giving a closed car with open car performance. From 2 to 60 miles an hour in high; beats most any car's time up any hill; picks up from 5 to 25 miles an hour in 7 seconds, in high.

In all our experience we've never seen a closed car of such character and merit for $1325 factory. Come in. Sit in it. Examine all its features. Drive it—today! [631]

Why Not a Modern Car?

IF, in the purchase of an automobile, you do not obtain all the great constructive developments that have marked the industry's progress, you deny yourself and your family the full measure of pleasure and safety that every modern car should provide. When you buy a car you should get—

First: A motor with such an abundance of power that it rises supreme over every problem of driving. In the 1924 Chandler you get the famous and flawlessly smooth

Pikes Peak Motor

which is now generally accepted as having no peer in hill or traffic performance, regardless of price.

Second: You should get some type of transmission that makes it impossible for the least experienced driver to clash gears. In the 1924 Chandler you get the

Traffic Transmission

which is opening a new driving era for thousands who have awaited the time when the terrors of gear shifting could be eliminated. Anyone who has used the old-fashioned gear shift lever can use it and make any speed change on the first trial.

Third: You should get a practically indestructible rear axle, for no car is stronger than its driving unit. In the 1924 Chandler you get

A Rugged Rear Axle

whose superabundant margin of safety is proved by an unprecedented record; not a single breakage of any sort in two years.

Fourth: You should get brakes which assure perfect balance; which are neither too weak nor too drastic. In the 1924 Chandler you get

Triple Brake Action

consisting of, first, a splendidly efficient contracting system on the rear wheels; second, an automatically equalized emergency brake on the drive shaft; and finally, the important braking capacity developed by the new Traffic Transmission through its ability to engage a lower gear at any time on any hill.

The car you buy should be a modern car. We believe that due investigation will convince you that any car, regardless of price, cannot be modern if it lacks any one of these important features.

Drive the 1924 Chandler! Handle the delicately balanced steering wheel yourself! Take an hour to convince yourself that it is the car you want!

(The Traffic Transmission is built complete in the Chandler plant under Campbell patents)

EVERY CAR WE SEE IS USED ONE, SAYS LYMAN P. CLARK

We often hear the merchandising of used cars referred to as the "used car problem," but it is no particular problem with the dealer who buys his used cars right and can sell them at a fair price to the purchaser, and in speaking of used cars we lose sight of the fact that every car that we see on the street is a used car—some are used more than others.

The used car is just as big a factor in the transportation scheme of any community as the new car, the street car, the taxicab or any other conveyance, says Lyman P. Clark of the Glendale Motor Car company, 124 West Colorado street, Maxwell and Chalmers dealers.

The modern automobile dealer is recognizing the fact that his city looks to him for good automobile transportation. Hence, if he really fills his place in the community, he must sell used cars under conditions that make for satisfactory, dependable, economical performance.

For these reasons the truly up-to-date dealer is giving his very best attention to the marketing of used cars on a basis that will assure satisfaction to the individual purchaser and thus increase the transportation efficiency of the community as a whole, says Mr. Clark.

IT REALLY PAYS TO KEEP CAR CLEAN

The wisdom of keeping automobiles clean does not have to be "shown" to the wise automobile owner. He well knows that fact, and for that reason he endeavors, so far as is possible, to keep the car looking "spic and span."

"No one enjoys driving a dirty dust-covered car on a sunshiny day," said L. G. Bramble, proprietor of the Glenda Auto Laundry, 109 West Wilson, this morning. "It makes a fellow feel like a man caught at a banquet with his 'garden clothes' on.

"There is no excuse for it. We can 'shine it up' for you at so reasonable a price you'd never hesitate. Besides dirt scratches the enamel of your car quicker than anything else. Don't try to rub it off—let us wash it clean. All our work is guaranteed. We make a specialty of washing, Simonizing, greasing, spraying motors, etc. Do you remember the last time you had your car greased? Perhaps it needs it again.

"We know the trick. Let us turn it for you."

OBSERVATIONS

Success in motoring is the ability to keep working for the improvement of the car and your skill in operating it. The proof of this pudding is in merely tasting it.

Somebody must have reminded the refiners that whatever goes up is sure to come down. The price of gas is proving the rule nicely.

There's no place like home—unless you've got a new car, a fat purse and an alluring road map.

It's a useless wheel that has no turning.

The most useful reserve tank in driving a car is a well-padded pocketbook.

They call 'em service "stations" because they're places where you stop and wait.

If they'd only officially shorten the length of the statute mile many an automobile salesman could go about with an easier conscience.

Impure gasoline will burn uncleanly and may leave sticky substances on the cylinder walls which will "glue" road dust and carbon soot into the combustion space.

(Copyright, 1923, by The Ullman Feature Service)

OLDSMOBILE SIX SETS POWER TARGET

A veritable lump of mud, the first car to ever cross the American Pacific, using only high gear, arrived in Los Angeles after driving 3,674 miles.

"Cannon-Ball" Baker, noted race driver, held up traffic for five minutes at Columbus circle and Broadway, New York City, at noon on October 8, while thousands gathered to witness the startof the first transcontinental high-gear run. The Oldsmobile "Six" which Baker had selected to make the first coast-to-coast run in "high" was inspected, previous to his start, by New York newspaper men who witnessed the removal of low, second and reverse gears and the sealing of the transmission box.

After two and a half days driving, Baker rolled into Indianapolis, 861.7 miles out of New York. An accurate check by weight was made of the oil consumption and it was found that but four ounces had been used in the 861.7 miles. An analysis of the oil in the crankcase after driving that distance proved that it had lost practically none of its lubricating qualities, in fact, dilution had taken place at the rate of but one-half per cent. A gasoline mileage of 30.3 gallon was verified by Indianapolis newspaper men.

Crossing the Mississippi on his way to Kansas City, Baker began to meet the first real obstacles of the journey. A steady downpour of rain made heavy, sticky, Missouri gumbo" mires so deep that the runningboards dragged.

When condtions permitted Baker to leave Kansas City, roads were found to be practically impassable—according to natives, the worst in 30 years. Powerful cars of all makes were having difficulty in negotiating the mud in low gear, but Baker, determined not to be delayed any longer, put his Oldsmobile Six across the entire state of Kansas with only high gear.

On the way down the Santa Fe trail to Albuquerque the car crossed some of the most difficult peaks in the Rockies, including Labajada hill, with 26 hairpin turns. Just previous to reaching Aubuquerque, a blinding storm of hot desert sand made driving extremely hazardous.

Though Baker set out to achieve one feat only—the driving of the Oldsmobile Six from coast to coast with but high gear, thereby accomplishing something previously unheard of, he also established some remarkable economy records for other drivers to "shoot at."

WHEEL ALIGNMENT

If it is found that the wheels are not true, jack up one at a time, and place a stationary point almost against the felloe band, then revolve the wheel to determine if the distance between the stationary point and the felloe is the same at all points on the circumference.

Keep the Car Looking New

When the paint on a car shows sigus of wear, have the spots touch up, followed by a varnish covering for the body.

PROPER USE OF HORN

The correct way to use the horn in warning pedestrians is to sound it in time to allow them to see the car and make up their minds which way to go. By doing so, the driver is further safeguarded by having time to stop the car at once if the pedestrian shows signs of confusion and inability to get out of the way.

LAP IN PISTON RINGS

When new rings are applied to the pistons, they should be lapped in so that they will fit the cylinder wall tightly and evenly all around. First put the rings on the piston and then move the assembly back and forth in the cylinder, using an abrasive mixture to assist in seating the rings.

Gear teeth in transmission are sometimes broken off by throwing in the clutch too suddenly, by shifting speeds rapidly when the engine and car speeds are not equal, or by accidentally shifting into reverse when the car is moving forward.

Oakland Six Touring Car
$945

Glass Enclosed Comfort
for only $60 more

For only $60—we will equip any True Blue Oakland Touring Car with a new Glass Enclosure designed by the factory and built to fit perfectly with Oakland's new type permanent top and its weather-tight windshield.

This Glass Enclosure is quickly installed and absolutely rattle-proof. Only your eyes can tell you how perfectly it fits, how fine it looks, and what a high degree of closed car comfort it offers for the cold and stormy days ahead.

See this Enclosure installed on a True Blue Oakland Touring Car or Roadster—the car with the highly developed six-cylinder engine, the sound and simple four-wheel brakes and the centralized controls. See it today—its utility and value will truly amaze you!

TWO RICK. LEADERS ARE NOW IN EUROPE

Captain E. V. Rickenbacker, vice-president and director of sales of the concern which bears his name, sailed last week for Europe, where he will attend the Paris Automobile show which opens soon.

E. R. Evans, chief engineer of the Rickenbacker Motor company, accompanies the famous Ace of Aces.

The pair will not only attend the great European exhibit of motor cars but will also visit the principal factories of France, Italy, England, Belgium and Germany.

Among those which Rickenbacker unfailingly visit at least once every year are the Issoti-Fraschini at Tourin and the Fiat at Milan, Italy.

In Germany the Benz and Mercedes plants will be visited and while in Stuttgart, Rickenbacker will re-inspect the famous Bosch electrical works.

Plants of the Sunbeam, Rolls-Royce, Lancaster, Daimler and other British cars will be visited, and with what will be exhibited at Paris, the two seekers for new engineering data will see all there is of new things worth consideration.

"I maintain that every American manufacturer not only of motor cars, but of any commodity, should keep as closely in touch with world markets and makers as we have in the past kept in touch with domestic conditions," says Captain Rickenbacker.

"European engineers are, in some ways, in advance of ours, for the reason that practically every car made there is different—they know no such thing as standardization—and each individual car is therefore in the nature of an experiment.

"This gives latitude for play of fancy, and in hundreds of experimental models it is inevitable that new ideas are occasionally found to be worth while.

"On the other hand, we Americans have mastered the problem of incorporating everything that is best in engineering and yet achieving such a degree of interchangability and efficiency in production, that the car can be sold for less than half the cost of making it by European methods."

The sturdy four-wheel brake "Rick" is handled in Glendale by Lewis F. Reed, 107 East Colorado.

STAR CAR GOES 30,000 MILES; IS O. K.

Makers of the popular priced product of Durant Motors, Inc., are pointing with pride to the record made by Star car No. 15, after 30,000 miles of hard use. The fifteenth car to be built by the Star Motor company of California was sold to Johnson of the De Vaux Motor company of Fresno. It was delivered to him at Oakland.

Johnson states that he drove" it to Fresno without preliminary limbering up in less than six hours, and that the car was perfectly cool upon arrival, water not having been replenished.

"Since then she has gone above 30,000 miles, all over the state, in fact, having made such trips as Fresno to Huntington lake via Northfork, Fresno to Sequoia National Park and Fresno to San Diego. This last run was made in high for the round trip, and made a particularly low showing of gas and oil, averaging 32 1-2 miles to the gallon of the former and consuming 1 1-2 quarts of the latter."

The Star is handled in Glendale by Dilley & Armstrong, 115 West Harvard.

An improvised dust cap can be purchased in any drug store for a few cents. Just ask for an infant's nipple. Slip this over the valve, and it will keep a lot of dirt off its stem.

OAKLAND BRAKE ADJUSTMENT EASY

"The four wheel brakes on the Oakland 6-54 are very easily adjusted, the only adjustment necessary being made at the hands themselves," says Thos. E. Ricketts, 219 West Colorado, Glendale Oakland dealer.

"The use of demountable steel wheels greatly facilitates this adjustment and permits it to be made accurately and quickly on the part of the mechanic.

"This will have a great appeal to all service men as with the wheel removed the brakes can easily be inspected while someone works the control, showing up instantly what adjustment is needed. The accessibility of the brake adjustment permits it to be easily and quickly made. In addition to the ease of adjustment built in the job by the use of demountable disc wheels, the frequency with which brake adjustment will be required is more than cut in half.

"This ease and accuracy of adjustment makes it possible to secure better operation from the brakes than where an equalizer is provided. Especially is this true of four wheel brakes, as the effect of one band being tighter than the others has very little to do with the stopping of the car. The condition tends to remedy itself by the excess wear that takes place upon this band while with the equalizer mechanism the condition is not self-correcting. Of the two four-wheel brake systems, the hydraulic and the mechanical, the mechanical possesses certain qualities which more than offset the one superiority, that of equalization claimed for the hydraulic system.

"The mechanical system possesses a much large factor of safety in that should anything happen to one of the brake mechanisms or brake rods, it in no way affects the efficiency of the other three brake mechanisms."

BIG IMPROVEMENT DUE IN MOTOR CARS

The automotive industry is about to enter the most spectacular period in the history of its development. The next five years will see as much fundamental progress in engineering design and in mechanical improvements as has transpired in the entire previous history of motor cars, according to statements made by Charles F. Kettering, automotive engineer, president of the General Motors research laboratories at Dayton, Ohio, made in a recent address before the annual conference of distributors, district managers and factory officials held at the factory of the Cadillac Motor Car company in Detroit.

"We hear a great deal of talk to the effect that the present motor car standard is about as good as it can be; that future changes will be of minor details; and that automobile manufacture is about to settle down into a rut of standardization," stated Mr. Kettering.

"As a matter of fact," he continued emphatically, "motor car development is just at the beginning. The members of the industry most prominent during the next five years will be those making the most fundamental advances."

Mr. Ketting then drew a parallel between progress in motor car manufacture and mechanical development of automobile tires, trans-Atlantic cables and new designs in stationary engines.

The "classy" Cadillac is handled in Glendale by the Court Motor company, 235 South Brand boulevard.

Overlook the fact that pan, engine and other mechanical parts of a car should be kept clean.

NEW CHEVROLET ARRIVES IN TOWN

The new Chevrolet Sport model has arrived in Glendale. It is now on display at the salesrooms of C. L. Smith, corner of Orange and Colorado, dealer for the "Chevie" in Glendale.

This Sport model is a beauty. It has disc wheels, bumpers, nickle radiator, nickle bars in front of radiator, step plates, wind wings, cowl lights, motometer, radiator bar cap and everything else that goes to make one of the niftiest sport models on the market today.

To see this Sport model is to admire it and to want one. The rest is easy.

CARRIER MAKES 42 MILES PER GALLON

Insisting that his Overland used less gasoline than any other make of car driven by fellow-mail carriers, Forrest B. Alexander of Yakima, Wash., backed up his boast with an actual demonstration.

To prove his argument, Alexander took five "doubting Thomases," all fellow workers, on a trip and before starting drained his gasoline tank and poured in one quart of gas. He traveled exactly ten and one-half miles on this quart—an average of 42 miles per gallon—while his passengers sat back and waited for the final puff and dying cough a long time before the journey ended.

After the trip was over he was asked how he did it and his reply was: "I have no special attachment or devices of any kind. The one thing necessary is to keep the engine warm and I have the radiator and hood on my car covered in cold weather. I watch the motometer to maintain a high enough temperature for good running. On my run of 26 miles it takes one to one and one-quarter gallons of gas."

This is a remarkable record when the number of stops that a rural mail carrier is forced to make on his daily trips, is considered.

The problem of obtaining the utmost satisfaction and economy in a motor car resolves itself into a very simple formula when considered in the clear light of logic.

Doesn't it hold true today, as always, that in purchases of importance it is wisest and safest to buy only the best?

And isn't it perfectly evident that a fine car,—particularly when that car sells for the comparatively low price of the Packard Single-Six,—is bound to cost you less for maintenance than any other car less finely built?

SPORT -O- GRAMS

By FRANCIS W. READ

At last it is here! The day for which football fans throughout the Southland and all the Pacific coast have been waiting has arrived. The Golden Bear of the University of California and the Trojan of the University of Southern California meet this afternoon in the biggest gridiron clash of all. Since the football season opened on the coast, fans have had their eyes on the tenth of November. So have the members of the Bear and Trojan teams.

Today's game is by far the greatest football struggle that has been staged in these parts. Rated by experts as the pick of the entire west, the two elevens are battling for the football supremacy of the west coast. To be sure, the winner will play against the eastern champion in the New Year's Day classic, but the fans are not thinking about that. That is overshadowed by the actual combat between California and U. S. C. Eastern fans are also watching with interest.

Last year when the two teams met the Bruins came out on the long end of a 12 to 0 score, but when the game was over they knew that they had been in a fight. This year the Trojans were reputed to be stronger than last, but they have not demonstrated it as yet. The Blue and Gold eleven from Berkeley was supposed to be shot to pieces by graduation and to present but a ghost of its former self. But the Bear has shown himself to be the same old animal of previous years, maybe not quite as strong as he was last season, but strong enough to prevent any team from scoring on him.

Not only does the importance of the game contribute to the intense interest, but the prospect of a wonderful exhibition of the gridiron sport serves to enhance its popularity. The fans who see the game today will probably see one of the best games ever displayed in these parts. How will it come out? We can tell you better after the game.

STANFORD MEETS OREGON GRIDDERS

[By Associated Press]

PORTLAND, Ore., Nov. 10.—Both equally confident the football teams of the University of Oregon and Stanford University are ready for the conflict today at Multnomah field.

Coaches of both teams expressed themselves as certain of a hard battle, and each man was predicting victory for his team.

Orgen is suffering from the absence of two of its players, Chapman, out of the game because of the death of his mother, and Von der Ahe, who was laid up by illness.

GLOOMY GUS IS MOANING AS THE GAME APPROACHES

"Gloomy Gus" Henderson, coach of the Trojan squad, gave the following for publication when interviewed last night:

"California is three touchdowns better than U. S. C. I don't see how we can win."

"We can't do anything with our best man out; couldn't do much with him in, but it's hopeless now."

Only One-Legged Football Player in Country is Twice Chosen Captain of Eleven

Witter	F.	O. Anderson

CAPACITY HOUSE IS PROSPECT FOR MONDAY'S BOUT

Indications for a capacity house at the Armistice day bouts of the Glendale Athletic club are exceedingly promising, according to Les Marston, matchmaker and manager of the show. The great card provided is the cause for the tremendous demand for seats.

Bull Montana and Swede Olson, famous grapplers, will stage the main event of the evening. They will wrestle for the best two out of three falls, with no time limit. Both are well known in the wrestling world and will put up a real scrap. Fans here are enthusiastic about wrestling since the Hackenschmidt-Polk bout two weeks ago.

Teddie Biller and Battling Ward will supply thrills in the semi-wind-up boxing bout. Ward has battled to a draw in the local arena three times while Biller put up a great fight here last week. They will enter the ring at 130 pounds.

Pete Essick will fight a preliminary bout while Joe Rickey and Earnie Stocker will mix in the curtain raiser. The bouts will be held in Hahn's auditorium, 109 N. Brand Blvd., at 8:30 Monday evening.

ATHLETICS WILL GO TO MAYWOOD

Glendale Athletic nine left this morning to meet the Maywood team on the latter's diamond at 3 o'clock this afternoon. Tom Morgan, star twirler for the Athletics, will pitch.

The team is expected to bring home another victory for so far this season they have been very successful.

ANDY SMITH WILL NOT PREDICT THE RESULT OF GAME

"Andy" Smith, mentor of the California squad, gave a short reply to our request for a statement:

"I have nothing to say about the Nevada game. We will try to beat U. S. C., and may succeed."

Earl Caddock Gives Away Earnings as Mat Champion And Becomes Evangelist

Higgs wanted to buy a car and Biggs wanted to sell one, so a trial run was arranged. Rattling and groaning, it covered the ground at its maximum speed, about one mile an hour.

"Rattling fine car!" ejaculated Biggs. "Sound in every part."

"So I hear," was Higgs' response.

Many a man has noble aims—but it is the hits that count.

GOLDEN BEARS FACE TROJANS IN BIG GRID BATTLE; 70,000 SPECTATORS WITNESS CONTEST

California and U. S. C. Out for Victory in Game of the Year, Henderson Is Gloomy, Smith Is Non-Commital

Bear and Trojan today faced each other in mortal combat. The University of California and the University of Southern California lined up against each other this afternoon in the Los Angeles Coliseum in a battle for the football supremacy of the west. Hours before the game was scheduled to start the huge stadium began to fill with spectators. From all sections of the west they came, supporters of the Blue and Gold and the Cardinal and Gold. An hour before the game commenced the general admission section was filled to overflowing.

When the rooting sections began to fill up the atmosphere became tense. On the south side of the field the California rooters gathered. Thousands of them were there from Berkeley and the Southern Branch, wearing the blue and gold hat of their university. On the opposite side sat the Trojan fans of U. S. C., wearing hats similar to the California top pieces, except that they were of cardinal and gold. Bands from both universities were present, and circled the field playing the old songs of their respective institutions.

California was the favorite shortly before the game commenced. The blue and gold eleven was conceded the best chance of a victory, although there were many present who stoutly proclaimed that the Trojan would win. It seems that the superior offense of the Bruins tended to make their victory more certain.

As the zero hour approached, Henderson, coach of the Trojan eleven was still gloomy. He still claimed that he would lose by three touchdowns. He had, however, decided upon his backfield lineup. He concluded that the best combination would be Dolley at quarter, Lefebvre and Riddle at halves, and Otto Anderson at full. Campbell probably was out for the entire game on account of his injuries, while Newman was not slated to start. The Trojan line was announced as follows: Pythina, Norman Anderson, Hawkins, Holly Adams, DuPuy, Cummings and Hobbs Adams. It seems that all of the dead and dying list of U. S. C. has come to life except Gordon Campbell, and without him Henderson says he is at a loss.

Andy Smith refuses to commit himself as to the outcome of the game. He says that his men will fight hard against U. S. C., and maybe they will win. As for the Nevada game, he has nothing to say. Brick Muller, famous Bruin end of last year, who is now on the coaching staff, told the writer that California realized that this would be a hard game, and that the Bears would fight accordingly. But he refused to predict the outcome.

Evans, Nichols, Dunn and Witter were slated to start in the backfield for the Blue and Gold. Hufford, Newmeyer, Carey, Horrell, Perry, Beam and Mell were slated to hold down the line. Then Smith may send in his other backfielders at any time. He has three complete backfields that are absolutely interchangeable.

MONROVIA BEATS TIGERS, COVINA DEFEATS CITRUS

Monrovia put over just one touchdown on South Pasadena yesterday in a battle staged on the former's gridiron, but that was just one more than South Pasadena could score, and the final figures favored the Wildcats, 6 to 0. Olsen, who went in at quarterback for Monrovia, put over the winning tally. The Tigers failed to threaten Monrovia's goal.

GLENDALE HIGH STEAMROLLERS WIN 25-0

Dynamiters Bury Alhambra Eleven Under Big Score

By FAIRFIELD WILSON

The famous Glendale steam-roller football team traveled to Alhambra yesterday, accompanied by almost half of the student body. They came back victorious, 25 to 0. It was an admitted fact that this was to be the biggest game of the season, so far, and it surely proved to be. The Glendalians filled the grandstands on the site of the field reserved for them, and what's more took possession of half of Alhambra's side.

When the two teams stepped on to the field, the difference in weight between them was very much in evidence. In fact the Alhambra players outweighed the Glendale boys on an average of 20 pounds to the man. But when weight was opposed to speed and skill, it lost out in the fracas.

As usual Glendale scored a touchdown in the first few minutes of play. It was "Breezy" Elliot who carried the ball over, but he failed to kick the goal. The manner in which this score was made was rather surprising. Elliot caught a punt on Glendale's 20-yard line and ran the intervening 80 yards while several of the Moors attempted to stop him, but these were surprised by his speed. The next touchdown was also made by Elliot, who this time was accurate in his kick. This brought the score to 13-0.

The second quarter was a series of punts until Ryan managed to squeeze the oval across the line. Walton, who had been substituted for Ryan at the beginning of the second half, made the other touchdown. The kick, however, was a failure and the score stood 25-0.

Farr of Alhambra deserves particular mention. During the first few minutes of play he was badly hurt, but would not leave the game. Although somewhat dazed and in pain, he made several good attempts at line plunges. He was finally forced to leave the field amid the cheers from both schools.

The defeat of the Moors means that Glendale has another string tied to the Central League banner. The only other team in the league undefeated is Covina. However, if anything can be gained by drawing comparisons, it might be said that they only ran up a score of 7-3 against Alhambra last week. Coach Hayhurst, nevertheless, is taking no stock in this manner of logic and expects to have his boys at their best for the Covina game next Friday. There is also a heavyweight game on Armistice day with Van Nuys. It is expected that this will serve as good practice for the Dynamiters. With support such as the latter have been getting, there is little doubt that they will show a good brand of football for this final league game.

The line-up yesterday:

GLENDALE		ALHAMBRA
Horil	R.E.	Nye
Phillips	R.T.	Cole
Brucker	R.G.	Davis
Zaun	C.	Kingman
Morrison	L.G.	Lewis
Dotson	L.T.	Bell
Lavelle	L.E.	Crawford
Ryan	R.H.	Olson
Bud Elliott	Q.	Rhoades
West	L.H.	Farr
E. Elliott	F.	Donaldson

Substitutions: Glendale — Walton, Deitrich, Fish, Olferd, Lundey, Deney, Bradner.

DYNAMITERS TO PLAY VAN NUYS ARMISTICE DAY

Glendale Eleven Will Stage Holiday Tilt on Local Field

On Monday the Glendale High will stage two special Armistice day games. The first will be between the Glendale and Burbank flyweights. The other will be a clash between the heavyweights from Van Nuys and the Dynamiters' heavyweight team.

Although neither of these games will be of any importance in the league, a large crowd is expected. The Glendale team has established itself in a position where a large following is expected whenever the Dynamiters are to be seen in action. This game will serve somewhat as practice for the Covina game on Friday, which will decide the championship of the Central League.

The admission to this game will be 50 cents. The first game starts at 1:30.

K. C. BOWLERS WIN AND LOSE

The K. of C. No. 2 bowling team won three games from the Odd Fellows and the American Legion won two from the K. of C. No. 1 in last night's match of the Fraternal league.

Monday night Al St. John and his bowlers will be at the Recreation alley to bowl the Psenner Bros.

AUTO REPAIRING
"SO EASY"
Clutch Attachment for Chevrolet Cars
There is nothing so annoying or injurious as the constant grabbing of a clutch which has a tendency to loosen the mechanical parts from the radiator to the rear end and is extremely unpleasant to the ones riding in the car. After this grabbing has taken place for a short time there is a likelihood of its tearing the whole rear end out, which is an unnecessary expense if you will only realize the clutch of any car needs occasional attention. You will have a smooth, easy but positive action thereby saving yourself expensive repair bills and make riding a pleasure as the SO EASY makes a good clutch better.

DIRECTION TURNER, DAHNKEN & LANGLEY AND WEST COAST THEATRES, INC.

AT THE THEATERS

BRILLIANT CAST IN "STRANGERS OF THE NIGHT" FILM

Laughs chased thrills all over the Gateway theater last night when the Fred Niblo production of "Strangers of the Night," a screen version of Walter Hackett's stage success, "Captain Applejack," helped prove that the screen is mightier than the stage. All of the spectacular development that the play suggested was realized in lavish fashion by this Louis B. Mayer presentation through Metro.

Matt Moore heads a brilliant cast as the timid Britisher who becomes a swashbuckling pirate, and the blonde beauty of Enid Bennett vies with the dark seductiveness of Barbara La Mar in the affections of the spectators. Robert McKim is again a superb villain.

Katherine Lewis, the very attractive blonde who plays the role of Betty Branscom in "Daytime Wives," started on her screen career with the Vitagraph company as a child during school vacation. She graduated from the Newark, (N. J.) high schol four years ago, and came to California, where she appeared in a number of notable Ince productions.

Her most recent success was in support of Viola Dana in "June Madness."

"THE LIGHT THAT FAILED," GREAT PLAY AT T. D. & L.

"What a wonderful story! How I should like to play the role of Dick Heldar if it is ever put on the stage."

The speaker was Percy Marmont, featured player in the Paramount picture, "The Light That Failed," which has its last showings today at the T. D. & L. theater. He was seated in a desk-chair aboard the S. S. "Gaika" enroute for South Africa and had just finished reading some old copies of Lippincott's magazine containing Rudyard Kipling's famous story, "The Light That Failed." A few hours later the "Gaika" was wrecked on the Grand Canary Islands and Percy Marmont practically forgot "The Light That Failed."

That was twenty years ago, and today Mr. Marmont is actually playing the role. Jacqueline Logan, Sigrid Holmquist and David Torrence are featured with him in the cast.

A more famous and higher priced cast than the one playing the roles of "The Gold Diggers," Warner Brothers adaption of David Belasco's play of the same name would be hard to find. The cast includes Hope Hampton, Windham Standing Louise Fazenda, Gertrude Short, Alec Francis, Jed Prouty, Arita Gillman, Peggy Brown, Margaret Seddon, Johnny Harron, Ann Cornwall, Edna Tichenor, Frances Ross, Marie Prade and Louise Beaudet. Harry Beaumont directed.

"The Gold Diggers" starts at the T. D. & L. theater Sunday.

GLADYS WALTON AT THE GLENDALE IN "UNTAMEABLE"

Gladys Walton acquired a new hobby during the filming of "The Untameable," her latest starring vehicle playing today at the Glendale theater.

Miss Walton became interested in fortune telling and said that she intends to delve into all of the mysteries of clairvoyance. Her interest in fortune telling was developed through her association with Etta Lee, the quaint little French-Chinese emotional actress, who has one of the supporting roles in the play.

Miss Lee's pet diversion is clairvoyancy and she is particularly clever at palmistry. Miss Walton has attractive hands and Miss Lee became interested, and mentioned their significance in regard to the little star's life. Right there she broke up the workaday routine. Every minute between scenes, she spent reading Miss Walton's palm.

Miss Walton became as excited as a school kid and has added many stories to her favorite aircastle, which, she admits, makes it pretty high.

"Going Up," Douglas MasLean's Aviation Comedy for Associated Exhibitors, heads the new program which opens at the Glendale theater Sunday. The story concerns a young man who through unavoidable circumstances is forced to fly an airplane when he has never been in one before. This comedy situation lends almost unlimited opportunity for hilarious comedy and thrilling flying scenes. "Going Up" is conspicuous for Douglas MacLean's ability to produce laughs and for the work of the entire supporting cast, which includes Marjorie Daw, Hallam Cooley, Edna Murphy, Hughie Mack, Francis J. McDonald and others.

DESIGNED BY WM. JECKEL

GLENDALE, CALIFORNIA, SATURDAY, NOVEMBER 10, 1923

HERE IS YOUR ONE CHANCE TO 'COME BACK'

THESE ARE MALIBU COUNTRY ESTATES

Two scenes in heart of tract, showing its wild and rugged features and a view on the table-smooth Ventura highway.

MALIBU COUNTRY ESTATES OFFERS REST AND QUIET TO THE CITY RESIDENT

Are You Worn Out by the Grind of the Modern Business Life? Are Your Nerves on "Ragged Edge?" If So, This Is Just the Place for You

HUNTING AND FISHING ABOUND THERE

Buried Deep in the Heart of the Wonderful Malibu Country, These Cabin Sites, Recently "Discovered" Are Available to the "Office Hound"

Have you ever been down in the Malibu country? Have you ever experienced the millions of wonders that are to be found in that close-in, yet far-away hilly country? Have you ever known the pleasure of hiking or riding over the rugged hills of that gorgeously rough section, such as one naturally expects to find only in localities that are hundreds of miles from civilization?

If you have not, you have a great big bundle of pleasures awaiting you.

For many, many years this property has been practically unknown. It has in the years gone by been the destination of huntsmen who knew just where to go to get wild game, and to the fisherman who had the "inside" on where to go when he wanted to bring home a well-filled creel. Only those who knew the "game" took advantage of the many wonderful sporting features offered by this remarkable section.

Then there were those who were lovers of sceenry who ferreted their way into this unsurpassed Malibu country. These folks would drive to the end of the road and there they would leave their car. On foot, with their luncheon strapped to their backs, they would hike mile after mile into this wild country, the tip of each peak and the curve in each hill of which revealed new wonder and unexpected beauty features. It is truly the dream of the scenery lover—of the man or woman who is in love of the rugged outdoors and mountain and canyon scenery.

While this section has, up to this time, been known to only a few, the time has come when its beauties and its wonders are available to the "ordinary" fellow. Its hidden crevices and rocks and knolls are now being unfolded to those who are striving to get away from the confining atmosphere of the congested city life.

There are hundreds and thousands of people in Los Angeles and the surrounding districts who are pining—longing for just such a place as Malibu Country Estates, which are located right in the heart of the famous Malibu country. There will be hundreds—many of them—who will see in this wonderful offering a chance to get away from the nerve-racking business life for a short while and to hide deep in the mountains where peace and absolute rest abide. They will see in this offering a chance to get away from their "city selves" and to be a child of the open. When they leave the city in their trusty auto they will leave their "city self" behind. It will be locked up in the office, there to remain until the day or the week-end trip is over.

Out the smooth Ventura boulevard they will ramble—light hearted and free, their hopes and desires directed toward an outing when they will be able to play and rest. When they land on the "job," work and care having been left behind, they will spend their hours in tramping the hills, hunting, fishing or the like. They will "come back," so that when they return to their office work will be a pleasure rather than drudgery.

The Malibu Country Estates, in which lots of various sizes are being offered at this time, adjoins Seminole Hot Springs and the Malibut Lake club, which recently completed a $100,000 club house. The prices of the lots range from $300, while some are as low as $50. These sites are one-quarter and one-half acre in size in the valleys, and acres and larger on the ridges and in the canyons. A good auto road runs to and around the tract.

The country abounds with wild game, such as rabbits, fox, coon and deer, making it dear to the heart of the sportsman. There is an abundance of water, making artificial lakes for swimming, boating and fishing available. Other recreation features will be added.

The completion of the projected extension of Cornell County road to the ocean connecting with the State Coast highway will make this property a feature of one of the most picturesque and interesting circuit drives in the Southland, viz: Out Ventura boulevard 37 miles to Cornell County road, over Cornell road through the canyons of the Malibu Country Estates and over the Santa Monica mountains to the Coast highway 22 miles and back along the Coast highway to Santa Monica 17 miles.

MOUNTAIN STREET IS OPENED BY LEIMERT

Important Link in Road Skirting Foothills Surveyed

The announcement of the opening of Mountain street made by the Walter H. Leimert company today is of great importance not only to Glendale but to motorists all over Southern California, for it forms a connecting link between the north end of Brand boulevard and Verdugo road. Heretofore motorists traveling from Flintridge, Montrose and Verdugo canyon have found it necessary to go miles out of their way—with Mountain street opened there is a direct route across the beautiful residential section of Glendale which lies at the foot of the Verdugo hills.

Passing through Bellehurst Park and skirting Bellehurst Hillslopes, Mountain street is lined with the wonderful old shade trees for which this part of Glendale is justly famous. Its beauty and the importance of the section it traverses, in addition to its convenience to motorists has predestined it to become a widely known thoroughfare, it is stated.

Although only just opened, there is increased demand for homesites fronting directly on Mountain street, according to a report of the Leimert company, and a rapid rise in property values in this region will inevitably follow.

P. E. Busses Re-routed to Avoid Congestion

A re-routing of the Pacific Electric busses so as to eliminate congestion at the corner of Brand boulevard and Broadway was ordered by the city council last night. At the present time the cars of the three routes pass this intersection and stop at the northeast corner.

According to the new routing all of these cars, instead of stopping at the northeast corner, will continue west across Brand on Broadway to Orange, south on Orange, east on Harvard, north on Brand to the southeast corner of Brand and Broadway, where the stop will be made.

It is believed that this arrangement will greatly relieve the congestion at this intersection.

LUMBER SHOWS UPWARD TREND

In 1922 our total exports of lumber amounted to 1,523,934,000 board feet, as compared with 1,204,808,000 feet in 1921, an increase of 27 per cent. The 1913 exports of lumber were 2,576,238,000 feet, making the 1922 exports 40 per cent less than 1913, says the lumber division of the department of commerce. The exports of boards, planks and

(Continued on Page 13)

Glendale Takes Ninth Position in Building

Glendale finished in ninth place among the cities of California in building during the month of October, according to a report just rendered by S. W. Straus & Co., Pacific Coast section. The permits of this city during last month of $805,506, show a gain of 17 per cent over October of last year and a 22 per cent gain over the totals for September of this year. The cities that "topped" Glendale last month were Los Angeles, with $20,541,872; San Francisco, $3,793,374; Oakland, $2,795,208; Long Beach, $2,336,695; Fresno, $1,392,081; San Diego, $1,318,147; Berkeley, $1,224,225, and Pasadena, $1,062,362.

A gain of 34 per cent over last October and 23 per cent over Sep- of this year was made in the issuance of building permits during October of this year by 49 cities in the seven Pacific coast states, according to the National Monthly Building Survey of S. W. Straus & Co., issued today. The month's total was $45,276,791, as compared with $33,586,537 for October 1922 and $35,998,019 for September of this year.

California, with an October total of $39,404,012, gained 40 per cent over October of last year and 33 per cent over September of this year in 28 cities reporting.

Los Angeles holds her place among the foremost cities with an October total of $20,541,872, a gain of 77 per cent over last October and of 33 per cent over September. The Los Angeles figures represent 45 per cent of the entire Pacific coast total and 52 per cent of the California total reported in this survey.

San Francisco, with a $3,793,374 total, lost 19 per cent from last October, but gained 30 per cent over September. Fresno made a remarkable increase, 127 per cent over September, with a total of $1,392,081. Long Beach reported $2,336,695 for October, a gain of 87 per cent over last October and 66 per cent over September.

Oakland, with $2759,208, set a new high record, this figure being 14 per cent over last October and

(Coninued on Page 13)

SHIP GRAPES WITH NO REFRIGERATION

Many thousands of tons of grapes rotted last year on the vines for lack of refrigerator cars. This year the car shortage, though less, is again serious.

Can grapes be shipped successfully in ordinary box cars? Experimentation by the Division of Viticulture and Fruit Products indicates that in the case of grapes for some purposes the answer is yes. Thus it has been found that if ripe grapes are packed carefully in an air-tight ten gallon keg and lightly sulfured, they will keep for at least 30 days without visible deterioration at any ordinary temperature. If the packed kegs are handled with ordinary care, the grapes will be in apparently perfect condition when the kegs are opened at the end of this time or even later.

The experiments are being continued with the object of finding how long the grapes will keep and to discover a method of preventing the development of the stale taste.

BABSON SAYS THE DAY OF THE SMALL HOUSE IS DAWNING

WELLESLEY HILLS, Mass., Nov. 10.—The day of the small house is dawning according to Roger W. Babson, who today issued a statement on the trend of the building industry.

"There is no question that some day the cost of building will be much less than it is now—the same as it is now about 15-20 percent less than it was in 1920," says the statistician. "The time will come when instead of talking about the poor tenant, our sympathies will be enlisted in the cause of the landlord. Every student of fundamental business statistics recognizes this situation. The point, however, which is important is whether or not this movement will come about suddenly or whether it will be spread out over a period of years. My own studies strongly suggest the longer and more gradual movement. There are two principal reasons:

"The first is that with all the new dwellings built during the past four years the greater part have been priced far out of reach of the great majority of people. In fact, some figures worked out by my organization show that less than 10 percent of the people can afford to buy the so-called 'moderate priced' dwelling built today. Some, to be sure, have tried to and may get along all right until they strike reverses. The average family, however, cannot afford to give more than one week's pay out of every month for rent. Less than 10 percent of the heads of families in the United States make more than $50 a week. Check up the cost of the houses built lately in your community and see how many of them can be rented profitably for less than $50 a month. Hence, when one talks about the saturation point in dwelling houses he must take into account the price zones considered. The saturation at present prices apparently is rapidly being approached, but as soon as another 15 per cent or 20 percent cut in building costs is put into effect an entirely new group of prospective home-owners is reached.

"The next point is that building costs can be reduced when the necessity arises. The only reason prices of building materials and building labor did not decline as much as the average of other things was because the demand was sufficient without it. That is merely the natural working of economic law. No one should be blamed for not charging less than the market price. On the other hand, as necessity arises, the cost of building can and will be cut. If prices today were at an irreducible minimum and demand were falling off, there would be more for the building industry to worry about!

"The chance of a sudden crash either in building costs or real estate values, therefore, is small. The movement, on the contrary, will be far more likely to carry out the appearance of a series of steps. We had one big step down in 1921, followed by a partial advance. Before long another step probably will be in order. General business as reflected in the Babsonchart is running at 16 percent below normal. The idea, however, that building values are suddenly going to drop to pre-war levels seems as improbable as the view that they will always continue at present high prices.

"It is highly important, however, that those who are interested in new building recognize the trend and work with it. The greatest opportunities during the coming year will be in building lower priced houses, not high priced ones. What is most needed today is a house within reach of the great 90 percent of prospects. Necessity is the mother of invention. Some day we shall probably look back on the high cost of building of today as the source of tremendous benefit because of the economies and improvements in construction methods it will have caused. If present indications are reliable the next few years will bring forth some remarkable changes in the customs and methods of building houses. If a builder is to keep a continuous flow of new business, he must lead in this procession with the chief aim of producing homes for the great majority. Every 10 percent that the cost of attractive homes can be reduced will increase the field of possible prospects by 500,000 to 1,000,000 people.

"During the past few months no less than a dozen leading architects have brought to my attention plans which they are developing whereby comfortable, livable homes can be built for much less than the usual cost. Some of these methods probably will prove impractical, but some of them are going to help in producing houses which the average man can afford to live in. They vary widely in method but all aim at the same purpose. Most of them involve a saving of labor. This, by the way, is exactly what has happened in every other industry when labor costs have become exorbitantly high.

"Some architects have found that certain of the features in the usual house which add to the expense can be successfully eliminated. Others have attacked the problem of the principle of quantity production. Much has been done in the way of more economical planning so that delays and holdups in the work are almost entirely eliminated.

"The idea that people are always going to have to strain the last notch in order to get together the rent each month is absolutely fallacious. When a number of people greatly need a certain thing someone always finds a way to get it for them. Moreover, such service usually carries with it the greatest reward. This present need for lower priced dwellings and lower rents represents such an opportunity.

"From the investor's point of view the present situation in the building industry suggests three things.

"Earnings of the industrial concern supplying the building industry will depend during the next few years upon whether or not the builders grasp their present opportunities. The situaton should be watched carefully by those interested in the securities of this group of building supply concerns.

"The investment builder faces the opportunity directly. There is little question but he will profit both by turning his attention to developments along the line of groups of less expensive houses than by continuing his activities in the higher price fields.

"Finally, the average investor has an opportunity in well located suburban land. Thousands upon thousands of modest homes will be built during the next few years. The automobile has broken the transit limitation which has heretofore bound our cities. The trend will be in favor of suburbs and the investor who puts a part of his funds in well selected suburban property at a fair price, judged on present levels, should profit during the next few years."

"Well, my little man, what can I do for you?"

"Please, sir, mother says these matches she bought this morning are no good."

"No good!" exclaimed the grocer "What's the matter with them? This is the first complaint I've had."

"Can't help that," said the boy. "Mother says they're no good."

"Nonsense," replied the grocer. Then, taking a match from one of the boxes, he gave it a smart rub, which ignited it immediately, and turned to the boy again. "Well," he inquired, "what have you got to say now?"

The complainant returned the disdainful look, undaunted.

"That's all right, guv'nor," he remarked, "but d'you think my mother's coming 'ere to strike matches on your boot every time she wants a light?"

MAGNOLIA PARK NEARLY SOLD OUT

According to M. Reiss, prominent attorney of Los Angeles and president of the Magnolia Park Development company who are subdividing Magnolia Park for E. L. White, a record has been made in the sale of unit number two of this tract. Just three weeks selling and the unit is all gone is the way Attorney Reiss puts it. Needless to say, unusual activity and interest is being shown in the valley and prospective purchasers are advised to buy early or it will be too late. Magnolia Park is truly a wonderful opportunity for the purchase of an ideal homesite. Due to the elevation of 600 feet, there is practically no fog there. Warm weather is another feature of Magnolia Park in the winter months while during the summer, cool breezes sweep through Dark canyon overlooking Magnolia Park. There are many other features, too numerous to mention why Magnolia Park is an ideal home-site tract. However, a trip out there any day will convince the most skeptical buyer. Unit No. 3 goes on the market Sunday and according to Attorney Reiss, it will be sold out in record time as were the first two units. A free lot is to be given away Sunday and some one will have the opportunity of building their home on one of Magnolia Park's beautiful lots without having to pay for the land. Many homes are already being built there and each day sees something new in the way of building activity. Lots can be purchased on very reasonable terms with only a small payment down. A trip to Magnolia Park is well worth the time and on Sunday visitors will be entertained with a band concert.

As Chauncey Brewster Tinker, professor of literature at Yale, was about to sail for Europe he was boarded by the ship news reporters. "On the level," said one of them, "what do you really think of the younger generation, especially the girls?"

"They are almost perfect," replied the professor.

"And all this talk about the way they drink?" another reporter suggested.

"They are almost perfect," the professor repeated. "They know when to drink, what to drink, where to drink, how to drink and when to stop." Then he added: "If you print that I'll thrash you all when I come back."

YOU SHOULD KNOW THE POPLAR TREE

By CHARLES H. SHINN
U. S. Forest Service

There are three sorts of these water-loving trees in California—the Aspen of the mountains, the Black Cottonwood of the foothill canyons and the Fremont Cottonwood of the lower valleys. All have heart-shaped leaves that turn yellow in the fall; their bloom is a pendant, catkin—or rather two catkins, one bearing the pollen dust, on the male trees, the other eventually producing the "cotton" on the female tree. The poplars grow under similar conditions with the willows and are often mixed with them.

Most of us are lucky enough to know the little Aspen—the "Quaking Asp"—for it grows in Alaska, Canada, the eastern United States as far south as Missouri and the western states and Mexico, at varying elevations from sea level up to over 10,000 feet. It is one of the darling trees whose small heart-shaped leaves dance at the slightest breeze. A group of them at the other end of your meadow or a whole hillside of them golden yellow in the fall, with a leaf here and there floating away on the wind, is a never-to-be-forgotten sight.

The "Black Cottonwood," the largest "poppie" in California, is found at elevations from 3,000 to 6,000 feet, abundant in the Sierras, less frequent in the Coast Ranges. Its leaves are longer-pointed than our other two species—deep, shining green above, whitish below—and its bark is much darker and heavily ridged. Largest in the rich flats at its lower elevations—sometimes even 125 feet high and 6 feet through — it is smaller as its elevation increases. At its best this tree furnishes real lumber, tough and pliant, odorless and tasteless, hence good for barrel staves, butter firkins, candy buckets and such wares.

"A Perfect Setting for the Home of Your Dreams"

Is now offered at this pre-opening sale of magnificent Homesites in

Crestview Manor of Glendale

"THE MOST EXQUISITE OF DESIRABLE SOUTHERN CALIFORNIA SUBDIVISIONS"

—From the Rock Bound New England Coast, from the Middle West, from Canada, from the South—from every part of the world come thousands to Southern California.

—To each this means a crystallization of a lifelong ambition to enjoy the advantages of this marvelous Golden State.

—Many have motored by the pretentious Brand Castle and grounds—nestled high up in the Verdugo Foothills—and said to themselves, "What a beautiful setting for a home—however, what's the use of wishing—only a millionaire could afford a home in such a place as this."

—But—what seemed the impossible has happened in the surprise announcement. A limited amount of this choice Foothill Property—adjoining and just east of the Brand Estate, will be offered for sale at prices that command the attention of those who appreciate a homesite of extraordinary desirability.

There Are Just 37 of These Homesites Procurable

at Prices Ranging from $2900 to $8250

—They overlook the entire Kenneth Road District—each commands a wonderful panoramic view of Glendale to the Southeast; Griffith Park to the Southwest; a vision for miles of the San Fernando Valley and the restful grandeur of the Verdugo Mountains to the North.

—Each lot has a generous frontage of from 60 to 200 feet; has a high elevation; is covered with beautiful flowers, and Mountain Street, a scenic drive of rare charm, runs through the center of the tract.

—The restrictions of $10,000 and up guarantee homes of rare architectural beauty.

—As the number of these homesites is limited.

MAKE YOUR RESERVATION AT ONCE
If you would be certain of securing a choice location

—Feel free to visit this wonderful property. Its advantages are so paramount that no sales effort will be made to influence your decision to make a purchase.

To Reach Crestview Manor—
Drive out Kenneth Road to Ben Lomond Drive; turn to the right to the end of street

RESIDENTS OF MONTECITO AND SPARR HEIGHTS ARE ENTERTAINED WITH DANCE

Barnum-Walters Co., Owners of These Two Tracts, Open Social Season With Masked Hallowe'en Ball Which Proves to Be Charming Event

BEAUTIFUL $40,000 COMMUNITY HALL USED

Finishing Touches Soon to Be Put on Oakmont Country Club; Half Million Dollars' Worth of Lots Sold in the Two Tracts During October

The winter's social activities in Montecito Park and Sparr Heights opened Saturday night with a masked Hallowe'en ball held in the community center building at Sparr eHights. Several hundred persons were the guests of Barnum Walters company, developers of the project.

The big community building—$40,000 gift of Messers. Barnum and Walters—is tastefully decorated in honor of the occasion, the splendid stage being especially well ornamented.

News that the Oakmont Country club is nearly ready to be opened is creating decided interest in homesites in beautiful Montecito Park, the developers report. Comparatively little finishing of the building and landscaping remain before the clubhouse can be thrown open to its membership.

Every of the rolling hillslope homesites Montecito Park faces out upon the lovely vista of the Oakmont country club, set at the base of the Verdugo hills that bound Sparr Heights on the west. The sight of the green golf course as it will be by midwinter, sparkling with club activity together with the flashes of gay conflict at the big tennis courts, will make this distant panorama peculiarly attractive.

"More than half a million dollar's worth of property has been sold in Montecito Park and Sparr Heights during October," is the report of Barnum-Walters company.

"From present indications we will far eclipse our sales record of the past twelve months, which was $900,000. More and more people, both local and newcomers, are realizing that here in the great old Verdugo hills we are developing what will be a "dream valley" of fine residences in a very short time.

"The home that Mr. Barnum of this firm is just completing is typical and affords a fine chance for our buyers to visualize just how a dwelling, very costly or otherwise, adjusts itself to the beautiful background afforded by the San Rafael mountains to Montecito Park's homesites.

"Mr. Barnum's beautiful estate isn't costing him a fortune. As he puts it: 'I had a million dollars' worth of landscaping given to me by the gigantic forces which rolled into place and smoothed over these wonderful hills.' Back east and in many places in the north, such a homesite as he has would be worth $100,000 for the land alone.

We wonder what New York City would do if it had Sparr Heights' Montecito Park only 25 minutes from the center of the city—which is what Los Angeles enjoys.

The Gothamites would buy it out in a day. Think of it—a great valley of superb beauty, filled with beautiful trees, flaming flowers and fine houses; towering hills and mountains as silent sentinels all around, against encroachments of heat and cold and industrials.

"We do not believe that in all glorious Southern California there is a peer to Sparr Heights and Montecito Park, and swiftly Los Angeles, Glendale, Hollywood and surrounding cities are coming to accept that view. It will surprise those who have not been here for some time to see the remarkable development we have made here. Where there was nothing but a big valley, heavily vegetated and basking in the sunlight under the hills a year ago, there is now a full-fledged country club, a great, handsome community building and scores of fine homes and stores.

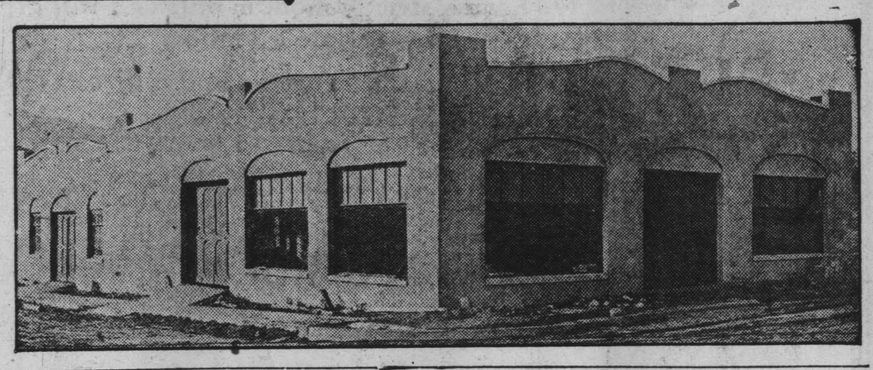

"Sparr Heights and Montecito Park, its third unit, in a few short years are going to be internationally known as are Bar Harbor, Newport, Santa Barbara and Coronado right now.

"Then is when present buyers at the low prices we are asking for highly improved estate-sized lots are going to reap the profit advantages."

LUMBER SHOWS UPWARD TREND

(Continued from Page 11)

scantlings in 1922, by months, were as follows:

1922	Ttl. M. ft.
January	148,675
February	125,973
March	159,869
April	132,807
May	136.953
June	152,379
July	115,858
August	123,233
September	106,943
October	110,153
November	115,243
December	115,097
Monthly average, 1913	196,005
Monthly average, 1920	120,227
Monthly average, 1921	100,587

The leading wood, the year under review, Douglas fir, of which 614,704,000 feet went abroad. In 1921 the quantity of Douglas fir exported was 455,233,000 feet. The 1922 increase was 35 per cent. The export of Douglas fir in 1913 amounted to 665,295,000 feet. During 1922 nearly one-half the Douglas fir went to Japan, nearly one-fifth to China, and the next largest quantities to Australia and Peru.

The second leading export wood in 1922 was southern yellow pine, 474,258,000 feet being exported, an increase of about 10 per cent over 423,736,000 feet in 1921. The 1913 figure was 669,737,000 feet. Nearly one-quarter of the southern yellow pine, in 1922 went to Argentina, nearly one-sixth to Cuba and less amounts of importance to Mexico, United Kingdom, Canada, Spain and Belgium. A very large increase occurred in the yellow pine exported to Canada over 1921 and the export to Spain was 184 per cent over 1921. Mexico took about 60 per cent less.

In other softwoods, comparing 1921 with 1922, spruce increased about five times to 35,178,000 feet, redwood more than doubled to 33,143,000 feet, white pine increased 78 per cent to 25,811,000 feet and western yellow pine more than doubled to 8,358,000 feet. However, other softwoods, not specified, declined one-third.

Oak was the third leading export wood, and the leading hardwood in 1922, increasing by 59 per cent over 1921 to 108,214,000 feet. In 1913, 287,855,000 feet of oak were exported. Oak exports to United Kingdom increased over 60 per cent to 49,200,000 feet, to Canada over 50 per cent to 32,338,000 feet, and increased amounts also went to Belgium, Argentina, Uruguary and Spain.

LATEST OFFERING IS KENNETH HIGHLANDS

One of the most beautiful subdivisions ever offered to the home lovers of Southern California is Kenneth Highlands, located a short distance east of Grand View on Kenneth road. In this tract there are 65 extremely desirable building sites, every one a jewel.

Kenneth Highlands is located in the celebrated north-west of Glendale— up away from the hustle and bustle of the busy city life, where you can rest.

One of the biggest things that has happened to the northwest section is the providing of transportation. In the past the big drawback with that section has been lack of transportation. For months this much needed commodity has been promised, but that it could not be given immediately was a real handicap.

This trouble, however, has been eliminated. Efficient bus service is now available, in fact, it goes right by this tract, adding greatly to the value of the lots in this subdivision.

This property was purchased and priced before this transportation was available, so that those who buy these lots are getting the advantage of increased value.

"Transportation," said Mr. McPhereson of the Edward & Wildey company, owners and subdividers of this tract, with offices at the corner of Broadway and Central, "will bring during the coming few months tremendous activity and development to the Kenneth road section—Glendale's choicest residential district. Kenneth Highlands will be another Edwards & Wildey subdivision where the early buyers will reap the profits.

"This tract is ready for the buyer right now. Sidewalks, curbs and rock macadam streets are in and paid for. The lots are priced from $2,600 up, the smallest lot being 60x158 feet in size."

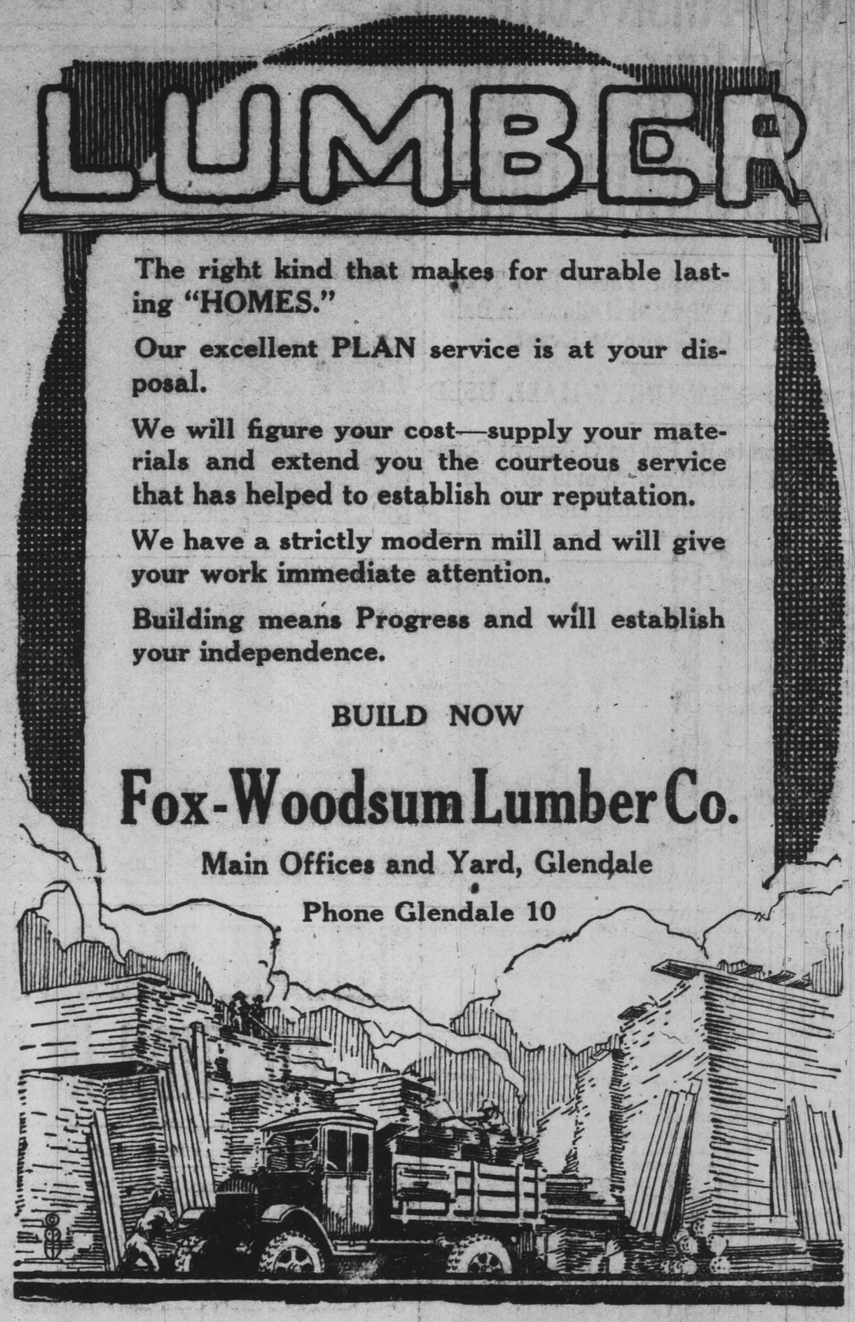

To reach this tract, drive out Central to Kenneth and along Kenneth to Idlewood, two blocks east of Grand View.

A woman of uncertain age went to the inquiry office at the terminus and asked when the next train left for Bradford, and the answer she received was "Twenty minutes to 11." She looked doubtfully at the man and went to one of the seats.

In a few minutes there was an exchange of clerks. She promptly went to the window and repeated her question. This time she was told that the train left at "10:40."

"There," said she in triumph. "I was sure that the other man didn't know."

NEW LA CRESCENTA TRACT MAKES "BOW"

'SAN SOUCI' UP IN CRESCENTA IS OPEN

Beautiful Homesites in This Tract Are Now Ready

The Glendale and Montrose Railway company is rapidly prosecuting the completion of the electrification of its road in order that the inhabitants of the La Crescenta and Montrose district may have direct transportation into Los Angeles by January 1.

The people of Southern California are rapidly realizing that the La Crescenta district is the garden spot of this section of the country, located in a beautiful valley, 1500 feet above the level of the sea. It has a wonderful panoramic view of the green Verdugo hills and the majestic Sierras, which are now spoken of as the "Switzerland of America."

There is a big demand for homesites in that section and one of the most recent subdivisions to be named is called, "San Souci," which is well named, meaning as it does, "without care." This tract is being put on the market by Robert A. Braskett, through the office of the J. M. Boland company, 213 West Broadway. The tract was formerly a vineyard and is divided into large homesites, 60x292 feet, each lot being covered with luscious table grapes of the choicest varieties.

"San Souci" is located within two blocks of the electric car line, school and stores, having a share of water stock with each lot, graded streets, etc. The Southern California Gas company is now laying its pipes to the tract, so that the homeseeker can secure a nice large lot with all city improvements for prices that are within the reach of his pocketbook, namely $1,000 to $1,600 on easy terms.

Being located at the intersection of three paved boulevards, it is possible to drive to Los Angeles in 40 minutes and to Glendale in 15 minutes. Owing to the climatic condition of the district, government reports are to the effect that it is the healthiest spot in the country, and has so been recommended by the famous Dr. Mayo of Rochester, Minn.

CELERY TURNIP NOW IS NEW

"Celery turnip" is a comparatively new vegetable to most tables although the turnip-rooted celery or celeriac has been in cultivation for many years. It is, as its name indicates, a celery with a thick fleshy root like a turnip.

To prepare it for the table, pare the root, soak it in cold water for an hour, then slice and boil until tender and serve with a dressing either of cream or butter, precisely as if it were a turnip. It may also be mashed.

A popular use, however, is sliced cold in salads. In this case the root is boiled whole in salted water until tender, peeled and sliced and dressed with French or mayonnaise dressing as preferred. It has the same flavor as celery.

It may be sown now for a late crop and the plants transplanted as soon as they have made two true leaves about a foot apart in rows eighteen inches to two feet apart. It neds rich soil, plenty of moisture and thorough cultivation, the same as celery. The roots keep as well when stored in the cellar, as turnips or beets.

Celeriac is beginning to appear in the city markets each winter although its progress into popular favor has been slow owing to ignorance of how to prepare it for the table. It makes a useful addition to the menu, furnishing a variety in vegetables when the selection is rather limited. The Large Erfurt for many years was the standard variety, but recently there have been improvements in this vegetable which consist in types with smoother surface and fewer roots. The new "delicatesse" is a good example of the improved type.

If you can spare a row in your garden for a few plants of celeriac you will be adding a vegetable to the winter supply which will be much relished by anyone who likes the flavor of celery.

Avoid Giving "Black Eye" To Exterior of Your Home

By an Interior Decorator

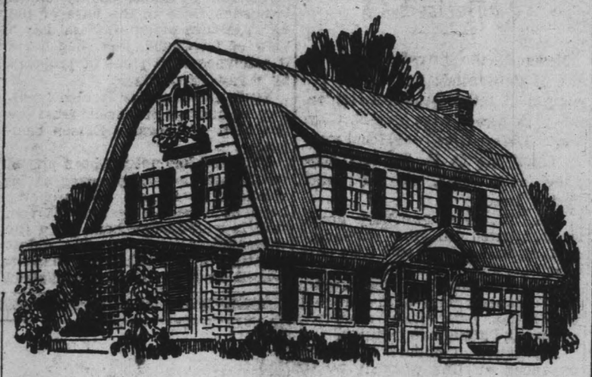

The skilled home furnisher pays attention as carefully to the impression the exterior of her house will make as she does to its interior. Interior decorating includes in one respect exterior decorating.

This is in reference to the windows, which some one has called "the eyes of the house." No one would fancy having one blue eye and one brown eye, or a pink eye and a green one. Just as incongruous effects as they would make are sometimes produced by the unskilled or careless in treating the final object in furnishing a house—the windows.

Changing metaphors, it might be said that if a woman's good taste can be told from her shoes and her hat, the good taste in which a house is decorated may be told from the appearance of its windows.

When in each room a differently colored fabric is hung across the window panes an indescribably messy exterior appearance results. In the interior the color they supply can be more effectively given by properly chosen overhangings.

Simple filet nets at every window produce an harmonious and pleasing effect.

CRESTVIEW MANOR PROVES REAL DISCOVERY

A discovery has been made.

The "best" hillside home location has at last been found.

Others have claimed this enviable distinction, but Frederick C. Wolter of the Wolter Realty company, 203 North Brand boulevard, declares he has the "goods."

Mr. Wolter is staking his assertions on his new tract, Crestview Manor, which is located deep in the heart of the wonderful northwest—close up against the green Verdugo hills, where those who know are clamoring for admittance.

This property has for years been known as the "Japanese flower gardens." Its soil is so admirably adapted to the growing of vegetables and flowers that for the last few years the Japanese, who may be relied upon to pick out the best there is in the way of soil, have never let go of it. Its future as a location for high class home-places is exceedingly bright.

"We have absolutely no competition in the way of scenic home property," said Mr. Wolter this morning. "Of course there are a number of subdivisions in this northwestern section, but none of them can begin to compare with our holdings. Every lot is a scenic gem—it commands a view of the entire San Fernando valley and the hills.

"The prices at which these homesites are being sold are ridiculously low. Within the next year they will double in value. Mountain street will run directly through the heart of this property, adding much to its value. You can't beat this tract no matter where you go."

The prices of lots in this tract range from $2900 to $8250, and the building restrictions have a minimum of $10,000.

Curing your Golf Troubles

By Jim Barnes

Dear Mr. Barnes: I am told that Vardon says that both hands are used about equally in taking the club back, while George Duncan advocates taking it back largely with the left hand. How do you account for this difference in their methods and which do you favor for the average player?

G. G. F.

Answer: Vardon is essentially a two-handed swinger. That is, he has the faculty of using both hands in almost like proportions, which is decidedly unusual. He rather slings the club back, making both hands work together smoothly, and likewise makes the downward swing with both working smoothly together.

Duncan, on the other hand, is like most other golfers in this respect. No matter how hard most players try to make both hands work equally, they find it next to impossible, and this goes for both good and bad with notably few exceptions. For this reason one hand or the other will do most of the work in taking the club back, according to how the player trains himself.

Undoubtedly it is better to make the left hand start the club back, for by so doing the player is more liable to start it low along the ground, which is important. Of course after the club gets approximately one-third the way back the right hand enters into the operation. If you let it do too much work at the start, you are very liable to lift the club up too sharply, and when you do you are almost sure to pull the hands too close in to the body. My tip to the average player is to make the left hand start the backswing, because mighty few are able to make both work evenly together.

(Copyright, 1923, by Bell Syn., Inc.)

All Sold Out

Some record, folks. Units number one and two of **Magnolia Park** are sold out. But here is some good news for those who were disappointed in not securing lots in these two units. We are glad to announce that

Magnolia Park

"The Investment Subdivision"

Unit No. 3 IS NOW READY

Our PRE-OPENING SALE on UNIT NUMBER THREE starts tomorrow. Come out at once and get first pick of these large, choice, level lots. Come out and see why hundreds of lot owners in the first two Units consider **Magnolia Park** the best buy in Southern California.

Lots $650 Up

Terms:

15% Down, $15 a Month

Including Gas, Water, Electricity, Streets, Curbs and Sidewalks

Situated as they are—**Magnolia Park** Lots won't last long. One glance at the price and terms will convince you of this. **Magnolia Park** lies in the very heart of tremendous Boulevard activity. Values are soaring and resales at big profits are being made by original **Magnolia Park** buyers. **Magnolia Park** offers you an opportunity to realize a profit from the very start on your investment.

Free Lot

$1050 LOT

To be given away tomorrow. Come out and register.

HOW TO GO

From Hollywood over Cahuenga Pass, then by Universal City to Lankershim, turning right on 4th street to tract. Or San Fernando Boulevard to Burbank and left on Magnolia Boulevard to tract.

If you registered for the free lot, come out tomorrow and bring your friends. The lot will be awarded tomorrow. If you have not registered, come out and register before noon. A corking good band will supply "peppy" music.

HOLLYWOOD PARK MAY BE YOUR "BIG CHANCE"

WONDERFUL OPPORTUNITY OF SECURING SCENIC LOT IS OFFERED IN THIS TRACT

Far Up Above the Turmoil of the Busy World—Up Where the Air Is Fresh and the Carefree Birds Abide Is Hollywood Park—the Beautiful

THERE ARE ONLY 150 LOTS IN THIS TRACT

Skyline Drive, Unsurpassed for It's Scenic Value, Runs Along the Hollywood Range; It Is on This Highway That This Subdivision Is Situated

Opportunity, in the form of one or more lots in Hollywood Park, comes knocking at the door of the investor. This park is located high up on the lofty slopes, right on the route of the proposed Skyline drive, which will extend from the northern terminus of Vermont avenue, up the hillside and along the ridge of the Hollywood mountains, coming out at a point close to Santa Monica. The $1,000,000 bonds for the construction of this drive were voted a short time ago by the city of Los Angeles and the actual work on this remarkable highway is but a matter of time.

In Hollywood Park lots are being offered for $750, this amount being payable $50 down and $10 per month. The prediction is made that by the time the skyline drive is completed the values of these pieces of property will have increased considerably.

"This is not a gamble," said S. J. Kinney, sales director of 606 South Flower street, this morning. "It is absolutely a sure thing. Water, gas and electricity are now on the tract. Now is the time to take advantage of this offer, because the construction of the Skyline drive will begin within 30 days. Remember there are only 150 lots in this tract."

The Skyline drive will be among the most unique features of its kind in the world. Being strung along the ridge of what is known as the Hollywood hills, every foot of it will command a view to the north of the wonderful San Fernando valley, one of the most fertile sections of farming lands to be found anywhere in the country. To the south will be disclosed the city of Hollywood and beyond, the western portion of Los Angeles, Santa Monica, Venice, Ocean Park and the cities to the south, as well as the wide expanse of the blue Pacific. Its scenic possibilities are tremendous. Its wonders will have to be seen to be realized.

It is right in the heart of this Skyline drive that Hollywood Park is located. Every lot in the tract is a scenic gem and almost before one has realized it, every site in this tract will have been disposed of.

The fare was not lavish, and one of the guests did not heistate to register discontent.

"What does this old fellow do in the winter when he has no summer boarders to skin?"

"He's a trapper," was the answer.

"Do you mean he traps animals?" the other inquired.

"Yes."

"He does not look smart enough for that."

"Oh, I don't know. He trapped us, didn't he?"

OFFICE IS OPENED BY CLAYTON HERE

Roy N. Clayton, who up to a short time ago was agent for the Dodge automobile in Glendale, has opened offices at 205 West Broadway. He has been appointed local manager for the O. B. Thomas company, 740 South Spring street, and will have charge of the sale of lots in Salisbury Manor, a large and desirable piece or property that is being opened by the Thomas company in LaCanada.

SUNSET HILLS IS VERY DESIRABLE HOMEPLACE

Sunset Hills.

Say it over again—"Sunset Hills."

When you have spoken these two words you have given voice to the last word in foothill homesites.

Nothing in the valley can surpass this tract for scenic beauty. Every lot in the subdivision has been so set as to give it a view of the green Verdugo hills to the north and the wonderful San Fernando valley to the south. Mile after mile of this wonderful valley are visible. Only by standing on the tract and seeing the remarkable view for himself can the prospective home owner appreciate the true worth of this tract.

The mammoth steam shovel and all the necessary road building machinery are now on the tract, and right now the work of cutting the roads through this 20-acre tract, in which there are 65 extremely desirable homesites has begun.

"This is your one great chance to get lots in this tract at opening prices," said E. E. Embury, manager of the Glendale office at 224 South Brand boulevard. "Every lot in this tract has a three-way view, overlooking the cities of Glendale, and Burbank, as well as the San Fernando valley. Values in this tract will increase rapidly as the cement sidewalks, curbs, paved streets, gas water and light are put in."

To reach this tract drive north on Central avenue to Kenneth road, turn west to Grand View, north to Mountain, then west to the tract.

LA CANADA HOME TRACT MAKES BOW

High and Sightly, These Lots Are Much Desired

News of the transformation of one of California's famous old citrus groves into a beautiful residential park comes from Roy N. Clayton, 205 West Broadway, local manager for the O. B. Thomas company, subdividers, at 740 South Spring street.

The Dr. S. S. Salisbury homestead, located in the center of La Canada, has been sold for a cash consideration of over $100,000 and plans are under way for turning this property into a magnificent residential park with numerous unique and attractive features.

Thousands of dollars have been expended on this property by its former owners and the trees of its grove are among the best both from the standpoint of productiveness and quality of fruit.

The O. B. Thomas company, which is subdivider of this property, has mapped out a dual tract. The lots facing Michigan boulevard will be reserved for commercial purposes, providing grocery, meat and other stores, badly needed in this community, for a modern trade center is not conveniently established amid the numerous big estates and residential sections of central La Canada. This commercial section will be called La Canada and, while small and compact, a distinct effort will be made to have the appearance in keeping with the beauty of the natural surroundings.

The old homestead, with its roadway bordered with palius, will be retained and reconstructed into a community park for the pleasure of builders in this subdivision.

Surrounding lots are generous-sized and with the beautiful trees and sloping ground form a picturesque setting for modern type homes. The property comprises 34 acres facing Michigan avenue at the junction of Verdugo road, adjoining the La Canada school. Michigan avenue is to be broadened and sidewalks, curbs and paved streets are to be put in. And, speaking of paved streets, Mr. Clayton states that particular care is being taken to have all of the paving inspected by the accredited county officials, in order that the unsatisfactory jobs that have characterized some subdivisions will be eliminated and that property purchased in this tract will be assured of satisfactory pavements for years to come.

The new subdivision will be known as Salisbury Manor and is ideal in its location as it is only a mile and a half from the Flintridge and Oakmont county clubs. It nestles close to the base of the Sierra Madre mountains and has a view of La Canada that has made it a long-coveted piece of property by many subdividers.

With this property is also incorporated acreage purchased from the Southern California Edison company.

The tract has not yet been placed on the market, but pre-opening invitations to inspect the property have been issued by Mr. Clayton, who is well known here. It is the company's plan to re-sell the lots at prices very much lower than are placed on the surrounding district and, due to the fact that it is only 35 minutes by motor from the Los Angeles business diistrict, a record is expected in selling out the tract.

BRUSSELS SPROUTS

Plant brussels sprouts now for your Thanksgiving dinner. This vegetable, always one of the most expensive in the market, can be as easily raised as cabbage and it is not of the best quality for use until after touched by frost. In the middle states it can be picked fresh from the garden for the Thanksgiving dinner when the fall happens to be late, and in case of early hard freezes the stalks can be pulled and hung in the cellar until needed.

Brussels sprouts seed may be sown now in the open ground and transplanted next month to their permanent locality. It needs the same culture as cabbage — rich soil and plenty of moisture. It is subject to the same pests and needs the same insecticides, bordeaux mixture and some arsenical poison such as paris green, arsenate of lead or some of the combined bordeaux and arsenates such as Pyrox. It also may need some nicotine fertilizer, in fact it is almost sure to, as one of the chief complaints concerning brussels sprouts in the market is that they are so likely to be filled with plant lice.

These can be readily controlled with a few drenchings of a tobacco tea or nicotine preparation. The brussels sprout makes a tall trunk with a cluster of leaves resembling cabbage leaves at its summit, the leaves disappearing as it grows and the small heads appearing late in the season in the axils or standing just above where the old leaves have fallen.

They may be planted 18 inches apart in rows two to three feet apart. Only a few plants will be needed to give a substantial picking in the fall. Aside from the expense of this vegetable in the market they can be had in the home garden free of insect pests and fresher.

Brussels sprouts make a good follow crop for spinach or lettuce or young onions, but should not be used as a follow crop for radishes. The improved Danish is one of the popular varieties, noted for its hardiness. It is a tall grower. Paris Market and Improved Dwarf are lower growers.

The territorial had just finished his first route march with his detachment. In the evening a friend happened to meet him on the way home and stopped to inquire how he liked being a soldier.

"Oh, not so bad," replied the new recruit in an off-hand way.

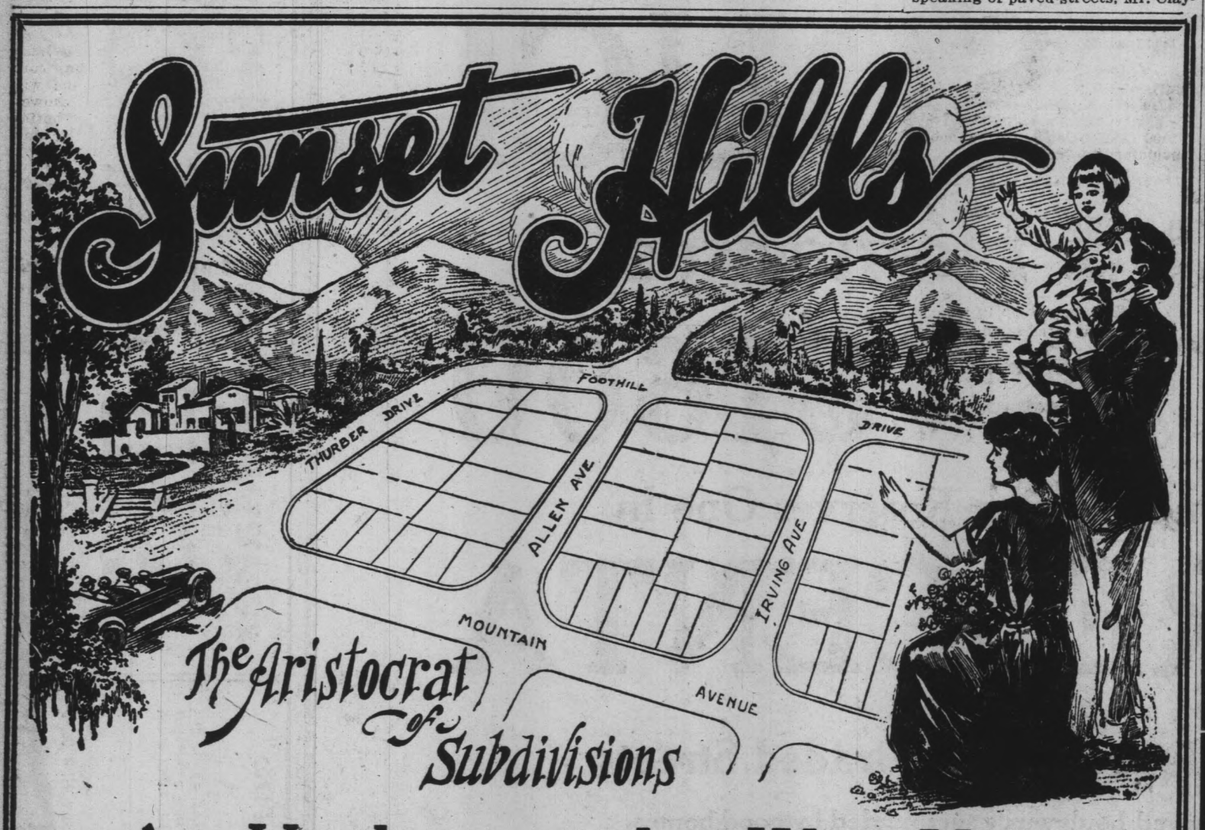

"Why, what do you mean?" said the friend, surprised at his lack of enthusiasm. "You were so keen on it last week."

"Yes, I am now," said the other. "But I do wish I had joined a smarter lot."

"But I thought the lot you have joined were noted for their smartness?"

The other snorted contemptuously.

"Smart? Call them smart?" he asked scornfully. "Why, we went for a route march and I was the only one in step the whole bloomin' way."

An Unobstructed 3-Way View

Embracing the cities of Glendale and Burbank and the beautiful San Fernando Valley BIG, DEEP LOTS, every one overlooking one of the finest panoramas in Southern California, and, by this reason alone, guaranteeing for this tract a **COMMUNITY OF HIGH CLASS RESIDENCES** sufficient to place this sub-division in a **CLASS BY ITSELF.**

Lots $1600 to $6500

All you need is a few hundred dollars to own one of these beautiful residence sites at but a fraction of what is asked for no larger lots in Hollywood and Beverly Hills, but which, a few years hence, will equal or exceed them in value.

THIS IS YOUR ONE GREAT CHANCE TO GET IN ON THIS MUCH COVETED PROPERTY BY A SMALL INVESTMENT

Invitation

This invitation is extended to all the people of Glendale for

Sunday, Nov. 11th

Sensational Announcement

The magnificent Salisbury Citrus Groves located on Michigan Ave., in the very center of the townsite of La Canada, is now being subdivided into a high-class business and residential district. The business district will be known as

LA CANADA

The residential section as

SALISBURY MANOR

The improvements will be of the very highest character, embracing:

The widening of Michigan Ave. to seventy-eight feet.

The construction of broad sidewalks, curbs, gutters, paved streets, parkways, set to palms, flowers and ornamental lighting system, all surrounding a beautiful park.

All previous efforts will be surpassed in converting this magnificent property into one of the most entrancingly beautiful business and residential show places in Southern California.

Will you not accept this invitation and spend an enjoyable outing at Salisbury Manor—partake of a dainty luncheon provided by the ladies of La Canada, and see this famous estate for the last time in its entirety?

This magnificent property must at last give way to the miraculous irresistible way of Southern California's progressive development.

DIRECTIONS:

Take Verdugo Road north to Montrose; thence to the right, still following Verdugo Road, to the La Canada School at the junction of Verdugo Road and Michigan Ave.

Salisbury Manor adjoins the school on the west.

HOUSES

A GLENDALE HOME
$9000—good terms; modern 6-room house with fine porches, large rooms and closets, fireplace and many built-in features. House exceptionally well built. Lot 92x184 feet, almost half an acre, located at 1439 East California street, Glendale, near Verdugo road, the new Union high school and the magnificent sanitarium building. Bearing fruit trees of different varieties, fine shade, commodious garage and chicken houses. Lovely flowers. A home, not a place. A house, not a building. The lot alone is worth about $6000. Owners on the property. C. W. McFadden, 510 East Colorado blvd., Glendale. Phone Glen. 2368-J, will show the property; or for appointment phone Burbank 24-W.

"Dream Valley"

Purple mountains in a silent circle . . broad acres splashed with green and crimson blooms . . tall trees straight to the blue sky . . laughter of happy children . . smooth hum of motors before stately homes—"dream valley."

Come Out Sunday

TWO MILLION dollars worth of homesite and business lots have been sold in Sparr Heights and its exclusive residential district, MONTECITO PARK. Hundreds of buyers in 12 months.

The most luxurious profusion of natural beauty in the Southland, plus unusual profit-making values and hundreds of thousands of dollars in improvements—these have caused HUNDREDS TO BUY here.

CEMENT STREETS, sidewalks, curbs, water, lights, gas, electricity, etc., are being rushed as fast as the power of this company and the might of hundreds of workers can accomplish them. See Montecito Park today. The activity here will amaze you.

Oakmont Country Club

This club, with its great swimming pool, 18-hole golf course and tennis courts, will be a Southland feature. It is in Sparr Heights.

MONTECITO PARK

Is in the gentle hills to the right of Verdugo Road in Sparr Heights. Restrictions are a minimum of $7500. Every homesite faces the country club.

Drive out from Los Angeles by West First Street to Glendale Boulevard, over the boulevard into Glendale Avenue to Forest Lawn cemetery in Glendale. North on Glendale Avenue into Verdugo road and thus on, five minutes north of Glendale to Sparr Heights.
